### Investing in Science: Investing in the Future!

#### About GUJCOST:

Gujarat Council on Science and Technology (GUJCOST), working under the aegis of the Dept of Science & Technology, Govt of Gujarat, is the nodal organization for promotion of science education, awareness, research and development through its various programmes and outreach activities across the state.

Established in September 1986 to play catalytic role in promoting the use of Science and Technology in the development process of the state, GUJCOST becomes an autonomous body registered under the Societies Registration Act in February 2000.

#### **About IT Question Bank:**

Following are the multiple choice questions (MSQ) based on computer and information technology.

Total 16 section has 100 MCQ's. Students are encouraged to practice section-wise.

Each question has four choices. Please select the correct answer.

The practice with this question bank will definite enhance the curiosity level understanding and confidence of the students to capture new concepts and contents in this ever-prosresting field.

All the best for your attempt.

#### PREFACE

The COVID 19 pandemic has pushed us collectively into a digital future, and it's happening right now, every single moment. It seems that the world is changing before our eyes as COVID-19 has sent us all home and forced us and our institutions to change the way we operate overnight.

Technology has become a major portion of everyday life. Information Technology (IT) has changed our lives drastically. One is only a single click away from everything.

With increasing knowledge and technological progress of society; our country requires learning skills that could help it keep pace with the development of science and technology.

With a view to support students in the endeavor to encourage thinking and to make them aware of the IT facts and to increase the knowledge of the IT related terminologies GUJCOST has prepared a "IT Quiz Question Bank" with more than 1500 multiple choice questions in quiz format on different aspects of information technology, internet of thing, computer fields for students and teachers and science communicators.

Quizzing is not just about GK, but about connecting the dots, reading between the lines and arriving at a conclusion. It needs to focus on logical reasoning.

The "IT Quiz Question Bank" is a compendium, will be help students to practice and have a feel of their own understanding level of IT.

In this documents the questions are not just on the mere recall or rudimentary comprehension but they have been designed to increase the student skill of problem solving. It is important to note that the larger intent of this resource is to provide students and teachers with a framework of practice questions which is based on analysis-based learning and problem solving.

We hope that students and teachers will welcome this document and use it jumpstart their own thinking and engagement processes. We also hope that this becomes a ready reckoner for preparation of any IT quiz and exam such as the National Rural IT Quiz and other similar competitions.

We look forward to feedback, comments and suggestions on how to improve and add value for students.

An e-copy of the IT Question Bank has also been made available on GUJCOST website <u>https://gujcost.gujarat.gov.in/</u> and can be easily downloaded.

Gujarat Council on Science and Technology (GUJCOST), Gandhinagar

Digital revolution now across villages in Gujarat

### **Digital Seva Setu**

No need to visit district or taluka headquarters for government administrative works. Within no time, citizens can avail all the services at the local Gram Panchayat.

Affidavit will also be done in the village itself. The authority will be provided to Talati of the Gram Panchayat.

Digital Seva Setu An initiative under Digital Gujarat Mission to make technology and administration reach to the people in the remotest areas of the state.

Income Certificate

Ration Card

gital

Certificates for Unreserved Category

Certificates for Widow Benefits

Minority

Certificates

7/12 and 8/A Documents

More than 22 such governmental scheme benefits can be now availed at Gram Panchayat itself. 2000 gram panchayat's will be covered in the first phase & 8000 gram panchayat's till dec 2020

### **ARTIFICIAL INTELLIGENCE**

Artificial intelligence is intelligence demonstrated by machines, as opposed to the natural intelligence displayed by humans or animals.

Each Section has 100 Multiple Choice Questions (MCQ). Each question has four choices. Student to Tick the correct answer.

Sr. No.	Question	A	В	С	D
1	The smallest possible unit of data is	Bit	Byte	BCD	EBC
2	Which of the following is not MS Operating System?	Windows MT	Windows XP	Windows 98	Windows NT
3	An Individual dot on a Computer screen is called a	Font	Character	Pixel	Screen point
4	Find the odd man out.	Coaxial cable	Microwaves	Optical fibre	Twisted pair wire
5	India's first super computer is	Agni	Flow solver	Param	Trisul
6	One byte is equivalent to	4 bits	8 bits	12 bits	32 bits
7	An IP address is a bit.	12	18	32	5
8	What is the full form of IP?	Interface program	Interface protocol	Internet program	Internet protocol
9	Select the smallest memory size.	Terabyte	Gigabyte	Kilobyte	Megabyte
10	is called the brain of computer.	Keyboard	Mouse	Memory	CPU
11	is used to read the code hidden on bars of product pack.	Bar Code reader	Bar reader	OCR	OMR
12	The unit of memory is	Sec	HP	Hz	Byte
13	To delete the character towards left side, Is used.	Del	Insert	Backspac e	Home
14	DVD means	Digital Versatile Disk	Digital Varied Disk	Digital Variable Disk	Digital Volume Disk
15	Which one is web browser?	Outlook	Word	Internet Explorer	None of these
16	1 MB= KB.	12	1024	167	256
17	'.JPG' extension refers usually to what kind of file?	System file	Animation/mov ie file	MS Encarta documen t	Image file
18	Which of the following is a medium of output ?	Scanner	Mouse	Printer	Keyboard
19	Which of these keys is not on the number keypad ?	Ctrl	Del	Enter	Num lock
20	Web pages are written using	FTP	HTTP	HTML	URL
21	Where is the headquarters of Microsoft located?	Redmond , Washingt on	Richmond, Virginia	Santa Clara, California	Tucson, Arizona
22	The extension given to the paint file is	.doc	.txt	.bmp	.rtf
23	OMR stands for	Optical Mark Reader	Optical Mark Register	Operatin g And	Minimum Cell Rate

				Maintena	
24	Father of computer is called	Marconi	Adison	nce Charls Babbage	None of these
25	PARAM was developed by	C-DAC	IIT kanpur	BARC	None of these
26	What is the shortcut for choosing italic letters in MS Office?	Ctrl + I	Ctrl + U	Ctrl + M	Ctrl + N
27	Founder of Microsoft Company is-	Paul Allen	Bill Gates	Both	All of these
28	A billionth of a second is defined as a:	milliseco nd	microsecond	nanoseco nd	picoseconds
29	Which of the following is not currently a topic in computer science?	Speech recognitio n	Artificial intelligence	Thermod ynamics	Multiprocessin g
30	What type of device is a computer keyboard?	Input	Output	Software	Storage
31	What is the fullform of 'AMOLED'	Active Matrix Organic Light Emitting Diode	Active Matric Organic Link Emitting Diode	Active Matrix Organic Link Emitting Dicode	Active Matrix Organic Light Emitting Dicode
32	Who created the game Angry Birds ?	Rovio	Subway	Counter- Strike	Temple Run
33	Which of these is not from Apple?	Ipod	Windows	Iphone	Mac Book
34	Which of this is not from Google?	Bing	Picasa	Android	None of these
35	CTRL+SHIFT+P is assigned for	Print	Font size	Print preview	None of these
36	The minimum zoom percentage is	0.02	0.1	0.05	0.08
37	Data can be stored in CD ROM using	CD Writer	Floppy Disk	CD Drive	Writer
38	The VLSI designed computer associated with thegeneration.	Fourth	Second	Third	First
39	All arithmetic and logical operation are executed under block.	CPU	MU	ALU	CU
40	Which of the following is standard output device?	Monitor	CPU	Mouse	Keyboard
41	The electronic device technology that formed the base of Second Generation Computer is	IC	Vacuum Tube	Transisto r	None of these
42	The indicates where the character you type will appear on screen	Space Key	Shift key	Cursor	Ctrl Key
43	programming language.	Basic	Machine language	Alp	None of these
44	is fastest memory	RAM	ROM	Floppy Disk	CD Rom
45	Unit is in between input and output device of computer	EPROM	RAM	Printer	CPU
46	Monitor access data from	Display Card	Magic Card	NIC	FAX

47	The Vacuum tube in pc is known as	CRT	Monitor	Screen	All of these
48	A stand alone computer cannot work without	RAM	Monitor	Screen	All of these
49	Mouse & printer device came under	Processi ng device	Output & input device	Input & Output respectiv ely	None of these
50	MB. = 1 MB	1000KB	1022KB	1024 KB	1000GB
51	In Operating System, which term define best "multi-task".	You are working in spreadsh eet	More than one user can run same program	Display only memory informati on	Both Way
52	In booting process memory checking for	Not need	Traditional way	Display only memory informati on	Checking & Verify conventional memory
53	A flat Magnetic part is known as	CD	RAM	ROM	CPU
54	A set of sectors is called	Tracks	Cylinder	Cluster	None of these
55	Data Access had searches data, one platter to another, This data searching time is called	Latency	Transfer rate	Seek Time	Total Time
56	Mainframe has ability for	Protectin g file with password	Multi user and multi tasking	Handling large amount of data	All of these
57	Which of the following is a hexa- decimal number?	320A	10010001	5g6iiTXB.	29
58	Between CPU and Mouse, the communication is from	Both Way	CPU to Mouse	Mouse to CPU	None of these
59	Which of the following is input device?	Mic	Speaker	Printer	Monitor
60	The Base 2 number system used by Computer is known as	Octal number system	Decimal number system	Hex number system	Binary number system
61	The Computer on your Desktop is undercategory	Micro Compute r	Mini Computer	Mainfram e	Super Computer
62	Normally when power is switch off, information stored inis lost	Hard Disk	ROM	CD	RAM
63	is set of instructions that tells the hardware of computer what to do.	Key board	Mouse	Program ms	CD
64	Which of the following is used to display large image?	Plasma	MRT	CRT	LCD

65	Data is stored initially in	RAM	CPU	DISK	CD
66	Which of the following is not a function of OS ?	Allows to send data from one computer to other	Manage the system	Manages I/ O device	All of these
67	PDA is Stands for	Personal Digital Assistant	Private Digital Assistance	Portable Digit Assistant	Public Dum Assistant
68	One GB is	Approx 1000bits	Approx. 1 byte	Approx. 1000 megabyt es	None of these
69	The Main part of CPU is	ALU	CU	MU	All of these
70	A Statistic for measuring how long a drive takes to read or write data is called	Refresh Time	Access Time	Seek Time	Process Time
71	using application like office Automation, desktop etc. have been made possible due to arrival of Computer	Mini	Super	Micro	Mainframe
72	Windows 95/98 NT is an	Program me	Operating System	Compute r	System
73	an Driver files are used to	Used to install program me	enable all drives	Closes the program me.	All of these
74	Which type of computer provides a user with most compactness ?	PDA	Mini	Micro	Super
75	were used for hardware Implementation in the first generation.	IC	Transistor	EC	Vacuum tube
76	External Devices such as those used for input and output are connected via	Monitor	Mouse	Port	Cable
77	FAT stands foe	File Allocation Table	Find Allocate Table	Follow Allow Table	None of these
78	Software is collection of	Program	Information	Hard ware	All of these
79	is known as temporary or volatile storage device.	ROM	RAM	EPROM	EEROM
80	The software available in computer system can be categorized as	System Software	Hardware	System & Applicatio n	System User
81	Operating System is installed on	Cache memory	Mother board	Hard disk	None of these
82	is the process of creating a duplicate set of programs or data files for safe keeping	Rename	Retrieve	Back up	File

83	Is called modifier key	Ctrl	Shift	Alt	All of these
84	Normally LPT1 port is used to connect	Monitor	Printer	CD-Rom	Keyboard
85	The touch-screen Monitors accept input directly through	Printer	Key board	Scanner	Monitor
86	The processing function is divided between	Memory	Processor	A,B both	None of these
87	The hardware or physical component of the computer consists of	Storage device	I/O device	RAM	All of these
88	The term that refers to the part of computer which you can touch is	Hardware	Software	Virus	Program
89	On your desktop computer, to store the character XY in memory bits are required	4	8	16	20
90	P-3 450 MHz "in this term, MHz is a unit of	HDD	Time	Frequenc y	None of these
91	Assembler, linker, complier, interpreter are the type of	User	hardware	System Software	Computer
92	that has been given a name.	Instructio n	Batch File	Folder	Procedure
93	printer create images directly on paper by spraying ink through tiny nozzle	Inkjet	Laser	Dot matrix	None of these
94	refers the set of electronic Instruction that tells the hardware what to do.	Hardware	Software	Data	None of these
95	ROM Stands for	Read Only Memory	Read Active Memory	Ready Access Memory	Random Access Memory
96	Most I/O device manufactures provide one of the following for OS.	Device driver	Device interface	Device interchan ge	GUI
97	Normally when power is switched off, date stored indoes not los.	RAM	Cache	CPU	Hard disk
98	The double sided and double density 5.25"flopy disk can storeof data	1.44MB	1.22MB	1.2KB	1.2 MB
99	In floppy disk which tab enforces read only technology?	Write Protect Tabs.	Read Protect Tab	Word Protect Tab	Tab
100	The Software used to control the computer & run programs is called	Games	Application s/w	system Software	Virus

### AUGMENTED REALITY (AR)

AUGMENTED REALITY IS AN INTERACTIVE EXPERIENCE OF A REAL-WORLD ENVIRONMENT WHERE THE OBJECTS THAT RESIDE IN THE REAL WORLD ARE ENHANCED BY COMPUTER-GENERATED PERCEPTUAL INFORMATION, SOMETIMES ACROSS MULTIPLE SENSORY MODALITIES, INCLUDING VISUAL, AUDITORY, HAPTIC, SOMATOSENSORY AND OLFACTORY.

Each Section has 100 Multiple Choice Questions (MCQ). Each question has four choices. Student to Tick the correct answer.

Sr. No.	Question	A	В	С	D
101	When the computer is turn on, which of the following memory is used at all time?	O/s Shell	O/s Kernel	O/s Interface	O/s server.
102	On MS Windows System, Which one of the following resides in memory all time.	Sector indicator	Fat+D171	Fast IDE	disk cache
103	Which of the following is not a type of an operating system?	ASCII	Linux	UNIX	Windows
104	Which one of the following is an input device?	Printer	Speaker	Scanner	Plotter
105	Secondary Storage refers to	Processo r	Fetch	Write Back	Measure
106	An Operating System is	Inaccessi ble through the tree	A Collection of programs that enables you .	Permane ntly burned into the memory	None of these.
107	is a part of the Central Processing Unit	JCL	ALE	ALU	KJL
108	You might find all of the following peripheral ports on a personal computer except	Pass	USB	Serial	Parallel
109	An advantage to a touch screen is	it is not as tiring as keyboard input	It is natural to touch things	It uses little screen space for each choice	None of these.
110	Common extension of sound file is	MIDI	DAT	WAVE	None of these
111	In system, buffers are placed in	Autoexec .bat	Config.sys	Both 1 & 2	None of these
112	is the best device to work with GUI	Mouse	Command line	Touch Screen	None of these
113	Software get from friends is	Licensed Software	Computer Software	Friends Software	None of these
114	A person able to navigate computer is considered as	Compute r Dealer	Computer Purchase	Compute r Literate	None of these
115	You save or store a file at in Computer.	Storage device	Desk	Directory	Both A&C
116	"Press any key to continue" is displaying key	Echo	Pause	Exit	End
117	If file will be closed then	Delete from RAM	Delete from Window	Automati c save a file	None of these
118	In which of the following we can store maximum data?	CD-ROM	DVD	CD	Floppy Disk

119	Software that is used to make system faster and easy is	Package	Application Software	System Software	None of these
120	In which of the following memory, you can't write?	RAM	ROM	CD	Floppy
121	In Windows 2000 Grouping of files in known as	Subfolder	Folder	File	Diary
122	is an output device	Keyboard	Printer	Mouse	Joystick
123	Video display is related to	Input	Output	Keyboard	None of these
124	is used as input as well output device.	Printer	Mouse	Both A & B	None of these
125	If you will add any hardware, which of the following program you need?	Driver	Device Driver	Applicatio n Software	None of these
126	will convert high level language to machine language	Executor	Assemble	Transisto r	None of these
127	cables can transmit data at high speeds.	UTP	Coaxial	Optical Fiber	Simple
128	The buying of product over cell phone is called	E- Commerc e	C – Commerce	B- Commerc e	M- Commerce
129	is not required for multimedia system.	CD Drive	A/c Software	75 MHz Pentium	Speakers
130	Upper Memory block is represented as	Extended Memory	External Memory	Internal Memory	Integrated Memory
131	TSR stands for	Terminal Stay Relay	Try Stay Relay	Terminat e And Stay Resident	Terminate Stay Relay
132	The lowest memory devices in terms of cost / bit are	Compact disk	Hard disk	DVD	None of these.
133	gate.	NEC	AND	OR	NOT
134	standard pointing device in GUI.	CD	Keyboard	Mouse	Wire
135	largest firm of hard disk drives.	BPO	IBM	Seagate	Micro
136	Computer means	Translate high level language to machine language	Translate machine level language to high language.	General level	None of these
137	ROM program is	Software	Findware	Hardware	Firmware
138	MU is one part of	CU	CPU	VDU	ALU
139	Machine Language is	Only language for computer	Language in which program written	Differs from one pc to another	All of these

140	Assembly language stands for	Easy Languag e	Need no translate	None of these	Used in Machine language
141	designs floppy disk drivers.	Nokia	Inter	Sony	None of these
142	Pixel stands for	File format	Smallest Resolution	Program	None of these
143	Cursor means	Click	Pixel	Blinking Line	Pointing
144	relates with scanner.	Taiwan	Media	Mouse	Mercury
145	computer peripheral firm that empowering your PC.	Nokia	Canon	Espon	Print
146	Which of the following memories is an optical memory?	Floppy Disk	Bubble Memories	CD-ROM	Core Memories
147	Java was originally invented by	Oracle	Microsoft	Novell	Sun
148	Whose trademark is the operating system UNIX?	Motorola	Microsoft	BELL Laborator ies	AshtonTate
149	Which of the following is the most powerful type of computer?	Super– micro	Super conductor	Super computer	Megaframe
150	In EPROM cycles allowed.	1000	100	10	1
151	EPROM is used for	Erase & reconstru ct	ROM erase	Duplicati ng ROM	None of these.
152	DMA means	Direct Memory Active	Direct Method Access	Direct Memory Access	None of these
153	DNS refers to	Data Number Sequenc e	Digital Network Service	Domain Name System	Disk Numbering System
154	The unit of speed used for super computer is	KELOPS	GELOPS	MELOPS	None of these
155	The first mechanical computer designed by Charles Babbage was called	Abacus	Analytical Engine	Calculato r	Processor
156	Which gate is a single integrated circuit?	Gate	Mother Board	Chip	CPU
157	C Language is…	A third generatio n high level language	A machine language	An assembly language	All of the above
158	Web pages are written using	FTP	HTTP	HTML	URL
159	The parity bit is added for the purpose of	Coding	Error detection	Controllin g	Indexing

160	Which of the following is NOT operating system?	Dos	Unix	Window NT	Java
161	The computer that is not considered as a portable computer is	Laptop computer	Mini computer	Notebook computer	None of these
162	Which of the following is an example of non volatile memory?	VLSI	LSI	ROM	RAM
163	Graphic interfaces were first used in a xerox product is called	Ethernet	Inter LISP	Small talk	Zeta LISP
164	Which of the following is need to build dynamic web documents?	CGI	Java	HTML	All of the above
165	ROM is composed of	Floppy disks	Magnetic cores	Micropro cessors	Photoelectric cells
166	Which command combines the contents of one file with another?	RESTOR E	RENAME	APPEND	AD
167	Find the odd man out.	Google	Lycos	Altavista	Java
168	Use to separate more than one e-mail address.	1	:	,	>
169	BPS stands for	Bit Per Schedule	Bit Per Sentence	Bit Per Second	None of these
170	Which is not web browser?	Windows Explorer	Mozilla	Internet Explorer	Netscape navigator
171	allows computer to communicate with other computer using telephone.	HUB	Modem	FTP	Cable
172	A combination of hardware and software that links two types of network is called	Gateway	FTP	Hub	MTP
173	The first network in world is	Nicenet	Net	Icenet	Arpnet
174	In internet device is used to connect two or more network is called	Gateway	Hub	Router	FTP
175	In address http://www.microsoft.com HTTP stands for	Hyper text transfer protocol	High text transfer point	Hyper text transform protocol	None of these
176	In following topologies which is invalid	Bus	Ring	Network	Star
177	The first movie released in 1982 with terrific computer animation and graphics was	Star wars	Tron	Forbidde n planet	Dark star
178	ISDN stands for…	Internatio nal Standard Digital	International Subscriber Dialing	Integrate d Service Digital Network	Integrated System Digital Network
179	Find the odd one out.	Network	Wi-Fi	С	INFORMIX

180	The is the administrative section of the computer system.	Memory Unit	Input Unit	Central Processi	Control Unit
181	FPI stands for	Faults per inch	Frames per inch	ng Unit Film per inch	None of these
182	CD–ROM is a kind of…	Optical disk	Magnetic disk	Magneto –Optical disk	None of these
183	What is the number of bit patterns provided by a 7 bit code?	64	256	128	512
184	Compilers and Interpreters are themselves	High level language	Codes	Mnemoni cs	Programs
185	A language for simulating models of business activity is	SPSS	GPSS	COBOL	DL
186	The word length of a computer is measured in	bits	bytes	millimeter s	metres
187	A device that converts digital signals to analog signals is	A packet	A modem	A block	Both (A) and (B)
188	What is the primary requisite of a good computer programmer?	Mathema tical mind	Artistic mind	Logical mind	Scientific knowledge
189	Find the odd man out.	FTP	POP	SAP	ТСР
190	Coded entries which are used to gain access to a computer system are called	Codewor ds	Entry codes	Exit codes	Security commands
191	VSNL stands for	Videsh Sanchar Nigam Ltd	Very Soft Network Link	Vigam System Nigar Ltd	Very Small Network Link
192	The errors that can be pointed out by the compiler are	Syntax errors	Internal errors	Semantic errors	Logical errors
193	Which one of the following when added can reduce the processing time of a computer?	a buffer	a co– processor	1024 megabyt e	a converter
194	Pick the odd one out.	Microsoft	ІВМ	Novell	Windows
195	CD ROM is a/an…	Optical device	Magnetic device	Electro Magnetiv e Device	Mechanical Device
196	Find the odd one out.	Mouse	Keyboard	Printer	Touch screen
197	A terabyte comprises	1024 gigabyte	1024 kilobyte	1024 megabyt e	1024 byte
198	Full form of TCP is	Transmis sion control program	Totalling control program	Transmis sion control protocol	Total control Protocol
199	Who is considered to be The Father of Artificial Intelligence?	Alan Turing	John McCarthy	George Boole	Allen Newell
200	Which of the following is an advantage to using fibre optics data transmission?	Resistan ce to data theft	Fast data transmission rate	Few transmiss ion errors	Low noise level

101	O/s Shell
102	Fat+D171
103	ASCII
104	Scanner
105	Write Back
	A Collection of
106	programs that
	enables you .
107	ALU
108	Pass

### **CLOUD COMPUTING**

Cloud computing is the on-demand availability of computer system resources, especially data storage and computing power, without direct active management by the user. The term is generally used to describe data centers available to many users over the Internet

Each Section has 100 Multiple Choice Questions (MCQ). Each question has four choices. Student to Tick the correct answer.

Sr. No.	Question	A	В	С	D
201	Choose the odd out.	Digital computer	Super computer	Minicomp uter	Micro computer
202	Pick the odd one out.	Microsoft	IBM	Novell	Windows
203	Which one of the following when added can reduce the processing time of a computer?	a buffer	a co– processor	1024 megabyte	a converter
204	Who is considered to be The Father of Artificial Intelligence?	Alan Turing	John McCarthy	George Boole	Allen Newell
205	Choose the odd out.	Digital computer	Super computer	Minicomp uter	Micro computer
206	What is TTL?	Technical Talk Languag e	True Technology Lives	Transpare nt Transfer Layer	Time To Live
207	What does DOCSIS stand for?	Data Over Cable Service Interface Specificat ion	Data Over Cable Security Internet Std	Data Over Cable Secure Internatio nal Stds	Data Over Cable Service Internet Standard
208	What is LCP?	Link Control Protocol	Laggy Connection Problem	Local Connectio n Protocol	Lost Connection Problem
209	What is FMD?	FastEther net Measurin g Device	Flashing Media Diode	Flash Media Driver	Fluorescent Multi-Layer Disc
210	What is RISC?	Runtime Instructio n Set Compiler	Remote Intranet Secured Connection	Remodele d Interface System Computer	Reduced Instruction Set Computer
211	What does SSL stand for?	Secure System Login	Secure Socket Layer	System Socket Layer	Superuser System Login

212	CD ROM is a/an…	Optical device	Magnetic device	Electro Magnetive Device	Mechanical Device
213	What is VCM?	Virtual Connecti on Manager	Voice Controlled Modem	Voice Communi cations Module	Virtual Channel Memory
214	Which of these is a documented hoax virus?	McDonal ds screensa ver	Adolph	Alien.wor m	Merry Xmas
215	What is NAT?	Network Address Translati on	Novell Address Transfer	Newly Added Technolog y	Network Administratio n Tool
216	What does PPTP stand for?	Point to Point Transfer Protocol	Point to Point Transmission Protocol	Point to Point Traffic Protocol	Point to Point Tunneling Protocol
217	A program that neither replicates or copies itself, but does damage or compromises the security of the computer. Which 'Computer Virus' it is?	Hoax	Trojan	Worm	Joke Program
218	What is a GPU?	Graphical Performa nce Utility	Grouped Processing Unit	Graphical Portable Unit	Graphics Processing Unit
219	What is a NIC?	No Internet Connecti on	Network Interface Card	Netware Intranet Controller	Network Interference Control
220	What does ICMP stand for?	Internet Connecti on Modem Protocol	Intranet Control Message Program	Internet Control Message Protocol	Internal Conflict Management Program
221	The main computer that stores the files that can be sent to computers that are networked together is	Clip art	Peripheral	File server	Mother board
222	To select text by shading as you drag the mouse arrow over the text is known as	To fetch	To highlight	To decode	Clip art

1	In 4000 which a many a set of the first				
223	In 1983, which person was the first to offer a definition of the term 'computer virus'?	Norton	Smith	Cohen	McAfee
224	What does ECP stand for?	Extra Compatib le Part	Extended Capabilities Port	Extended Connectio n Port	External Cordless Peripheral
225	A computer virus that actively attacks an anti-virus program or programs in an effort to prevent detection is	Trojan	Worm	Retrovirus	Ghost virus
226	What is a MAC?	Mediocre Apple Compute r	Media Access Control	Memory Address Corruption	A Computer made by Apple
227	Which of the following operating systems is produced by IBM?	UNIX	DOS	Windows	OS-2
228	RAM stands for	Really Annoying Machine	Random Access Memory	Real Absolute Memory	Read A Manual
229	Which was an early mainframe computer?	UNIC	FUNTRIA	ENIAC	BRAINIA
230	This virus activated every Friday the 13th, affects both .EXE and .COM files and deletes any programs run on that day. What is the name of that virus?	Jerusale m	Melissa	l Love You	Chernobyl
231	Which of the following word processors came first?	MS Word	WordPerfect	Lotus Notes	WordStar
232	The invention of the transistor, or semiconductor, was one of the most important developments leading to the personal computer revolution. What company invented the transistor in 1947?	internatio nal business machines	Xerox	MITS	Bell Laboratories
233	Which Intel chip was the first to support a32-bit bus architecture?	286	486SI	Pentium	386DX
234	Which company created the most used networking software in the 1980's	Microsoft	Sun	Novell	IBM
235	What was the clock speed of the original IBM PC?	Less than 5 MHz	Just over 16 MHz	8 MHz	10 MHz

236	Which of the following is not a programming language?	Turing	Basic	C#	Java
237	Another word for the CPU is	Decode	Microprocesso r	Execute	Micro chip
238	On what date was the debut of the first IBM Personal Computer?	28876	29454	29963	29810
239	How many bits is a byte?	32	16	4	8
240	Which of these is not a computer?	Macintos h	Aptiva	Acorn	Paseo
241	Which of the following is NOT a type of expansion slot or bus design used in Advanced-Technology class systems?	ISA	PROM	PCMCIA	EISA
242	'DB' computer abbreviation usually means?	Driver Boot	Data Block	Double Byte	Database
243	Experts say the healthiest way to view a computer monitor is by	Using special glasses that filter out UV rays	Placing it 18 to 30 inches away from your eyes	Adjusting the screen for maximum contrast	Viewing from a darkened room
244	Changing computer language of 1's and 0's to characters that a person can understand is	Decode	Highlight	Execute	Clip art
245	In what year did the Symantec Corporation first release Norton Antivirus?	1997	1990	1995	1988
246	The Central Processing Unit is an embeded chip that acts as the 'brains' of a computer. What Intel chip was used in the Altair (the first real personal computer)?	6502	6400	8286	8080
247	What do we call a network whose elements may be separated by some distance? It usually involves two or more small networks and dedicated high-speed telephone lines.	WAN (Wide Area Network)	World Wide Web	URL (Universal Resource Locator)	LAN (Local Area Network)
248	'DTP' computer abbreviation usually means?	Data Type Program ming	Document Type Processing	Digital Transmiss ion Protocol	Desktop Publishing

r		1	1	1	
249	What is the term to ask the computer to put information in order numerically or alphabetically?	Crop	Sort	Report	Record
250	The letters, "DOS" stand for	Data Operatin g System	Data Out System	Disk Operating System	Disk Out System
251	Windows Vista, the eventual replacement for Windows XP, will demand more from a computer. Which of the following statements is correct?	A DVD drive is needed	A separate graphics card, rather	You'll need at least 512 megabyte s of RAM	All the above
252	Who built the world's first binary digit computer: Z1?	George Boole	Ken Thompson	Konrad Zuse	Alan Turing
253	Floppy Disk is thetype of memory.	Magnetic & Secondar y	Primary	Secondar y	None of these
254	How much bytes equal to the 1024 KB?	1024	1024 * 1024	8	1
255	All important data files are stored in	Ram	Sram	Rom	Hard disk
256	'OS' computer abbreviation usually means?	Operatin g System	Optical Sensor	Order of Significan ce	Open Software
257	Your computer has gradually slowed down. What's the most likely cause?	Your processo r chip is just getting old	You dropped a sandwich in your computer	Adware/s pyware is infecting your PC	Overheating
258	A dual-layer DVD is valued because it:	Can hold more data	Contains a backup of the data stored	Creates alternative sound tracks	Uses a second layer to offer a speed increase
259	Mouse is the type of the device.	Output	Pointing	Scanning	None of these
260	Which of the following is input device?	Scanner	Speaker	Printer	Plotter
261	ENIC stands for	Electroni c New Interchan	Electric Numerable	Electronic Numeric Integrator	Electronic Numerical Integrator

		ge and Calculate	Integrated and Calculus	and Calculator	and Computer
262	The letter's characters typed from keyboard can normally be seen on the	VDU	CPU	MOUSE	PRINTER
263	Computer is a system which includes	CPU, Input devices, Monitor	Mainframe computer	Super computer	None of these
264	The capacity of 5.25 Floppy Disk is	1.44MB	1.8MB	1.2MB	1.6MB
265	isn't the primary memory.	EPROM	ROM	CDROM	RAM
266	The first calculating device is	Super Compute r	Digital Computer	Abacus	None of these
267	Personal Computers are the type of computers.	Super computer	Mainframe computer	Mini computer	Micro computer
268	PC stands for	Private Compute r	Physical Computer	Personal computer	Personal Card
269	Computers used in house, business establishments & on the desktop of offices are called	Personal computer	Mainframe computer	Super computer	None of these
270	The size of file is measured in	Bite	Bit	Byte	None of these
271	is a volatile memory.	Hard disk	ROM	RAM	EPROM
272	is not logic gate.	NEC	AND	OR	NOT
273	Which of the following is the high speed printer?	Line printer	Inkjet printer	Laser Printer	Dot Matrix printer
274	Which is the first electronic computer of the world?	Niac-1	ENIAC	Micro frame	None of these
275	Super Computer is still in generation.	Second	First	Fourth	Third
276	Which electronic device was used in Second Generation Computers?	Vacuum Tubes	VLSI	Transistor	None of these
277	computer works on digital principle.	Hybrid	Analog	Digital	None of these

278	The MICR device uses a special type of font called	Times	Helv	Arial	E13B
279	Which of the following is not a basic component of PC?	Monitor	Scanner	CPU	Keyboard
280	OCR reads only the types of font.	Cursive writing	OCR	Hand written matter	None of these
281	The development period of Second Generation Computer is	1965- 1975	1967-1985	1955- 1965	1945-1955
282	The input devices are connected to CPU by using	Output port	Input port	Com port	None of these
283	In third Generation Computers is used.	LSI	Transistor	IC	EC
284	The Hybrid Computer works as a…	Digital Compute r	Analog Computer	Both A & B	None of these
285	The development period of First Generation Computers is	1945- 1954	1987-1997	1967- 1977	1946-1957
286	All arithmetic and logical processing done in	ALU	CU	MU	CPU
287	The computer that works on analogous way is called	Hybrid computer	Digital Computer	Analog Computer	None of these
288	To move the cursor one screen up is called	Home	Tab	Page up	End
289	A computer with the facilities of sound and video is called	Movie media	Micro media	Multimedi a	None of these
290	The software designed for accounting is	Operatin g System	Application Software	System software	Hardware
291	Which is the interface between hardware and software?	Operatin g System	Application Software	System Software	Hardware
292	Which unit generates the timing signals for the execution of commands?	MU	CPU	MP	СU
293	Computer used for special effects in movies is	Mainfram e computer	Super computer	Micro computer	Macro computer
294	The printers that use impression technique for their printing is called	Spray Printer	Nonimpact Printer	Laser printer	Impact Printer

295	In First Generation Computer was used.	Vacum tube	IC	EC	Transistor
296	In keyboard, function of which keys are changed according to the software?	Function keys	Alphabetical keys	Arrow keys	Numeric Keys
297	Floppy disk and Hard disk are	Software	Storage Device	Operating system	Types of scanner
298	The speed of CPU is measured in	Bytes	Bit	Hz	Sec
299	To move cursor with five spaces in one keystroke which key is used?	Shift	Ctrl	Alt	Tab
300	To move the cursor to the end of line, which key is used?	Home	Page down	End	Page up

## **CYBER SECURITY**

Computer security, cybersecurity or information technology security is the protection of computer systems and networks from information disclosure, theft of or damage to their hardware, software, or electronic data, as well as from the disruption or misdirection of the services they provide

Each Section has 100 Multiple Choice Questions (MCQ). Each question has four choices. Student to Tick the correct answer.

Sr. No.	Question	A	В	C	D
301	A set of program designed to perform some specific task is called	Software	Hardware	Program	None of these
302	The touchable part of computer is called	Program	Hardware	Software	None of these
303	If Num Lock key is off, the keys of numeric key pad act as	Cursor key	Numbers only	Function keys	None of these
304	On numeric key pad keys are available.	0 to 9 numbers	Arrow keys	characters	All of these
305	Which of the following is programmable ROM?	PROM	EPROM	EEPROM	All of these
306	If Num Lock is on, the keys of numeric pad act as	Arrow only	Character only	Numbers only	None of these
307	If floppy disk is write protected then we can	Only write the data	Floppy will not access	Only read the data	None of these
308	Serial mouse is connected to	Com 1	Com 1	Come 2	Serial Port
309	If Caps Lock key is on, then	Capital letters print	Small letters print	The lowercase letters print	None of these
310	is used to translate scanned image into text for edition.	SCR	SCSI	OCR	USC
311	If Caps Lock key is on and any character key is pressed in combination with shift key then	Capital letters print	Small letters print	Lowercas e letters print	Both B & C
312	To move the cursor to the beginning of the line, which key is used?	Home	End	Page up	Delete
313	The quality of impact printer is decided by	PPI	DPI	SSP	MPI
314	The CPU access each location in memory by using unique number called	Memory address	Data address	Data bus	None of these
315	Which of the following Dot Matrix printer is high quality printer?	12 pin	24 pin	18 pin	10 pin

316	In CPU's instruction set, each instruction is expressed in	Microcod e	Minicode	Operand	Instruction
317	To draw the architectural drawings and graphics, which of the following is used?	Scanner	Printer	PDA	Plotter
318	The circuit board to which microprocessor attached is known as	CPU	Keyboard	Motherbo ard	Monitor
319	Virus is…	A program	A device	An error	None of these
320	Computer is fastest computer system.	Mainfram e	Super	Mini	Micro
321	To use numerical key pad on keyboard, you must turn on	Caps Lock	Num Lock	Scroll Lock	None of these
322	SMPS stands for	Simple Mode Power Supply	Single Mode Power Supply	Switch Mode Power Supply	None of these
323	Website allows users to search data on keywords.	Net engine	Search engine	Web browser	None of these
324	Buying and selling on internet is known as	E- business	E-buzz	E- commerce	None of these
325	The acronym 'PPP' stands for	Print Point Protocol	Point To Point Past	Point To Point Prompt	Point to point Protocol
326	GUI stands for	Graphic User Integrate d	Graphic User Intership	Graphic User Interface	None of these
327	SLIP stands for	Serial Line Internet Protocol	Serial Line Internet Point	Serial Line Inter Protocol	Serial LAN Internet Protocol
328	MIME means	Multi Inner Mail Extensio n	Multipurpose Internet Mail Extension	Multiuse Inner Mail Extension	None of these
329	A computer in network which serve only network resources is known as	Node	Client	Server	None of these

330	Sending messages on internet is called	E-patra	E-mail	message	SMS
331	UPT & STP are terms related to	Networks	Twisted pair cable	Type of protocol	None of these.
332	VSNL stands for…	Videsh Sanchar Nigam Ltd.	Videsh Sanchar Nike Ltd.	Vishwa sanchar Nigam Ltd	None of these
333	Web document is stored as text file with extension	.HTML	.HTM	both A & B	None of these
334	The first page displayed when user first visit site is called	First page	Home page	Front page	None of these
335	To view web pages you need	www	TCP/IP	Browser	None of these
336	To transmit information in form of light pulsesmedia is used.	Coaxical cable	Fiber optic	Twisted pair	Satellite
337	The first ISP in India is	MTNL	VSNL	BSNL	Arpanet
338	Each component in network is called	Node	Domain	Terminal	Compter
339	Internet is	Collectin g	Software	Network	Format
340	A process know as is used by large retailers to study trends.	Data mining	POS	Data selection	Data conversion
341	The ability to recover and read deleted or damaged files from a criminal computer is an example of a law enforcement specialty called.	Robotics	Computer Forensic	Simulation	Animation
342	After a picture has been taken with a digital camera and processed appropriately, the actual print of the picture is considered :	Data	input	Output	the process
343	Computers use the Language to process data.	Processi ng	binary	Kilobyte	representatio n
344	The CPU and memory are located on the :	Expansio n board	storage device	Motherbo ard	output device
345	A is approximately a million bytes.	Gigabyte	megabyte	Kilobyte	terabyte
346	A is approximately one billion bytes.	Kilobyte	Gigabyte	Bit	megabyte

347	Poor Response times is usually caused by	Process Busy	High Paging rates	High I/O	All of these
348	All hardware setting can be done using	Task bar	Edit	File	Control Panel
349	Which of the following menu is used to create new folder in Windows Explorer?	Edit	File	Help	Tools
350	In Paintbrush of Windows XP F1 IS used for	Word	Windows	File	Help
351	In Windows you can search files	By date of creation	By name	Type text	File
352	Files disappeared from the hard disk due to power failure can be received using	Disk defragme nter	System auditor	Chkdsk	Scandisk
353	The disk defragmenter is used to	Arrange files alphabeti cal order	know the capacity of the unused disk	Know the capacity of the unused disk	None of these
354	The CD-ROM drive is used to	To install software	The control digital information	To play music	To play compact disk
355	How can you change the size of the recycle bin?	Right click on Recycle bin select setting	Right click on Recycle bin select properties	Right click on Recycle bin select change size	Double click on Recycle bin, select properties
356	You hard disk access speed gradually degraded, which of the following utility helps to detect the fault?	System monitor	Scandisk	Disk defragme nter	None of these
357	You can change screen saver settings using	Control Panel Dialog Box	Setting Dialog Box	Display Properties	Print Manager Dialog Box
358	Ctrl + F4 is used to	Close applicatio n	Close an active document window	Both A & B	None of these

359	Using File Manager, we can see information of drivers at a time.	Four	Тwo	One	Three
360	The Microsoft Corporation is an	Russian company	American company	Germany company	Indian company
361	A file name in office 97 can have maximum of characters.	16	256	32	11
362	The calculator is present in two different modes & modes are	Standard mode	Scientific mode	Both A & B	None of this
363	How many bits is a byte?	4	8	16	30
364	http://www.indiabix.com - is an example of what?	A URL	An access code	A directory	A server
365	Changing computer language of 1's and 0's to characters that a person can understand is	Highlight	Clip art	Decode	Execute
366	The input used by an antenna or cable to a TV set uses frequencies called?	IF	RF	AF	SAP
367	What is the term to ask the computer to put information in order numerically or alphabetically?	Crop	Record	Report	Sort
368	.BAT' extension refers usually to what kind of file?	Compres sed Archive file	System file	Audio file	Backup file
369	Where is the headquarters of Intel located?	Redmond , Washingt on	Tucson, Arizona	Richmond , Virginia	Santa Clara, California
370	'.BAK' extension refers usually to what kind of file?	Backup file	Audio file	Animation /movie file	MS Encarta document
371	'DTP' computer abbreviation usually means ?	Digital Transmis sion Protocol	DeskTop Publishing	Data Type Programm ing	Document Type Processing
372	Compact discs, (according to the original CD specifications) hold how many minutes of music?	74 mins	56 mins	60 mins	90 mins
373	Who built the world's first binary digit computer: Z1?	Konrad Zuse	Ken Thompson	Alan Turing	George Boole

374	"FET" is a type of transistor, Its full name is Effect Transistor?	Field	Flash	Factor	Force
375	'.TXT' extension refers usually to what kind of file?	Text File	Image file	Audio file	Adobe Acrobat file
376	In what year was the "@" chosen for its use in e-mail addresses?	1976	1980	1972	1984
377	What do we call a collection of two or more computers that are located within a limited distance of each other and that are connected to each other directly or indirectly?	Internet	Interanet	Local Area Network	Wide Area Network
378	The language which is understood by computer is	American Languag e	Machine language	Secret Language	None of this
379	Computer Language JAVA developed by	Sun Micro System	Microsoft	IBM	Infosystem
380	Mostly computer can understand	English like high level instructio n	any Language	Basic	Non of this
381	is applicable in all computer	Cobol language	Machine language	Basic language	Fortan
382	is a set of symbols, keywords and set of rules to construct statement	Compute r program me	programming language	Assemble	Syntax
383	Computer language used on the internet is	Cobol language	Java	Pascal	None of this
384	A prescribed set of well defined instructions for solving mathematical problems is called	A compiler	A description	A code	A algorithm
385	which of the following is a popular programming language for developing multimedia web pages	Cobol	JAVA	BASIC	Assembler
386	A contains specific rules and words that express the logic steps of an algorithm.	Logic Chart	syntax	programm ing structure	programming language

	A superbia supersentation of the		1		
387	A graphic presentation of the sequence of steps needed to solve a programming problem is called a	program flowchart	step chart	rule diagram	program graph
388	The operating system called UNIX is typically used for	desktop computer s	laptop computers	super computers	web server
389	C, BASIC, COBOL, and Java are examples of language.	low level	computer	High level	None of this
390	A set of rules for telling the computer what operations to perfoms is called a	Comman d language	Natural language	Programm ing language	procedural language
391	A mistake in an algorithm that causes incorrect results is called a	Logical error	syntax error	Procedura I error	Compiler error
392	To calculate perform calculation and store data computer user	Decimal	Hexadecimal	Octal	Binary
393	The largest unit of storage is	GB	КВ	MB	ТВ
394	The time bit is short for	Megabyt e	Binary language	Binary digit	Binary number
395	Which of the following is true?	Byte is a simple digit in binary number.	Bit represents a group of digital numbers.	Byte is an eight digit binary number.	Bit is an eight digit binary number.
396	Howmany choices are there in binary choice?	One	Two	It depends upon the amount of memory in a computer	None of these
397	The smallest unit of computer memory is called	Bit	bytes	Megabyte	None of these
398	Which of the following is used for memory measurement?	Lb	Mg	Tb	GHs
399	What are the two digits of binary system?	1 and 9	1 and 0	1 and 4	1 and 2
400	The method to store characters and symbols in bytes is called	Number system	Alpha system	Byte system	coding system

301	Software
302	Hardware
303	Cursor key
304	All of these
305	All of these
306	None of these
	Only read the
307	data
308	Serial Port
	Capital letters
309	print
310	OCR
311	Both B & C
312	Home

## DATA SCIENCE

## 01

#### **BUSINESS UNDERSTANDING**

Ask relevant questions and define objectives for the problem that needs to be tackled.

## 07

#### DATA VISUALIZATION

Communicate the findings with key stakeholders using plots and interactive visualizations.

## DATA SCIENCE LIFECYCLE

02

DATA MINING

Gather and scrape the data necessary for the

Fix the inconsistencies within the data and handle the missing values.

## 06

## PREDICTIVE

Train machine learning models, evaluate their performance, and use them to make predictions.

## 05

#### FEATURE ENGINEERING

Select important features and construct more meaningful ones using the raw data that you have.

## 04

### DATA EXPLORATION

Form hypotheses about your defined problem by visually analyzing the data.

Data science is an interdisciplinary field that uses scientific methods, processes, algorithms and systems to extract knowledge and insights from structured and unstructured data, and apply knowledge and actionable insights from data across a broad range of application domains.

Each Section has 100 Multiple Choice Questions (MCQ). Each question has four choices. Student to Tick the correct answer..

Sr. No.	Question	A	В	С	D
401	Series of eight bits is called	Bit	Byte	Kilobyte	None of these
402	shows 'off' state of current in binary code.	1	0	3	2
403	The length of any word in a computer is measured in	Bits	Meter	Bytes	None of these
404	1001, Series of four bits is called	Bytes	Nibble	Bit	Input
405	What is logic gate?	A software	A type of Circuit	A special Cd	A computer game
406	measures in megabytes.	Intensity of earthqua ke	Capacity of power	Memory capacity of computer s	None of these
407	One Kilobyte is equivalent to	1000 Bytes	1024 Bytes	10000 Bytes	100000Bytes
408	The indicates how much data a particular storage medium can hold.	replace	Capacity	memory	torage
409	Information on a computer is stored as	analog data	digital data	modem data	watts data
410	Which of the following is the second largest measurement of RAM?	Terabyte	Megabyte	Byte	Gigabyte
411	The computer abbreviation KB usually means	Key Block	Kernal Boot	Kilo Byte	Kit Bit
412	What is a keyboard used for?	Input text and numbers and send comman ds to the computer	To create new keys to use with your computer	To open the computer up	To create picture and images and send them to your computer
413	What are the speakers attached to your computer used for?	Displayin g image	Sending messages	Storing message s	Handling sound and music

414	The mouse usually appears in the shape of an arrow.	Indicator	Marker	meter	Pointer
415	The most common storage device for the personal computer is the	Floppy disk	USB thumb drive	Zip disk	Harddisk drive
416	Which of the following could be digital input devices for computer	Digital camcord er	Microphone	Scanner	All of the above
417	If you open a menu and then decide you don't want to select an option after all, click the menu title again or press the key to close the menu.	Input automati on	Item data Automation	Scaning automati on	Source data automation
418	A key that will erase information from the computer's memory and characters on the screen	edit	dummy out	trust key	delete key
419	Ais often used to select or highlight.	icon	keyboard	Hard disk	mouse
420	The most frequently used piece of hardware for input data is the	keyboard	floppy disk	cursor	software
421	Themay also be called the screen or monitor	printer	scanner	harddisk	display
422	An attempt to make a computer resource unavailable to its intended users is called	denial-of- service attack	virus attack	worms attack	botnet process
423	WPA2 is used for security in	ethernet	bluetooth	wi-fi	none of these
424	Network layer firewall has two sub- categories as	stateful firewall and stateless firewall	bit oriented firewall and byte oriented firewall	frame firewall and packet firewall	none of the mentioned
425	Network layer firewall works as a	frame filter	packet filter	both (a) and (b)	none of the mentioned
426	Extensible authentication protocol is authentication framework frequently used in	wired personal area network	wireless networks	wired local area network	none of the mentioned
427	When a DNS server accepts and uses incorrect information from a host that has no authority giving that information, then it is called	DNS lookup	DNS hijacking	DNS spoofing	none of the mentioned

	In computer security,				
428	means that computer system assets can be modified only by authorized parities.	Confident iality	Integrity	Availabilit y	Authenticity
429	In computer security, means that the information in a computer system only be accessible for reading by authorized parities.	Confident iality	Integrity	Availabilit y	Authenticity
430	Which of the following is independent malicious program that need not any host program?	Trap doors	Trojan horse	Virus	Worm
431	The is code that recognizes some special sequence of input or is triggered by being run from a certain user ID of by unlikely sequence of events.	Trap doors	Trojan horse	Logic Bomb	Virus
432	Which of the following malicious program do not replicate automatically?	Trojan Horse	Virus	Worm	Zombie
433	A is a program that can infect other programs by modifying them, the modification includes a copy of the virus program, which can go on to infect other programs.	Worm	Virus	Zombie	Trap doors
434	Which of the following is/are the main part(s) of basic cellular system.	A mobile Unit	A cell Site	A mobile Telephon e Switching Office	All of the above
435	Fading of the received radio signals in a mobile communication environment occurs because of	Direct propagati on	Multipath Propagation	Bi-path Propagati on	None of the above
436	State whether True of False. i) The cells or subdivisions of a geographical area are always hexagonal. ii) A land to Mobile call originates through the Telephone exchange.	True, False	False, True	False, False	True, True
437	The basic GSM is based on traffic channels.	connectio n oriented.	connection less.	packet switching	circuit switching.

438	In multiple access is achieved by allocating different time slots for the different users.	TDMA	CDMA	FDMA	FGMA
439	State whether True of False. i) In GSM only TDMA is used. ii) There is zero inter-channel interference in CDMA.	True, False	False, True	False, False	True, True
440	are typically characterized by very small cells, especially in densely populated areas.	2G system.	3G system.	2.5G system.	3.5G system.
441	A antenna which attempts to direct all its energy in a particular direction is called as a	Direction al Antenna	One to One Antenna	Propagati on Antenna	Single Direction Antenna
442	Which mode is used for installing networks in wireless communication device characteristics?	Fixed and wired.	Mobile and wired.	Fixed and wireless.	Mobile and wireless.
443	is not the component of data structure.	Operatio ns	Storage Structures	Algorithm s	None of above
444	Memory unit that communicates directly with the CPU is called the	Main memory	Secondary memory	Auxiliary memory	Register
445	CISC stands for	Common Instructio n Set Compute rs	Complex Instruction Set Compilers	Complex Instructio n Set Compute rs	Compound Instruction Set Computers
446	The communication between central system and the outside environment is done by	Input- output subsyste m	Control system	Memory system	Logic system
447	A collection of lines that connects several devices is called	bus	peripheral connection wires	Both a and b	internal wires
448	Bluetooth is an example of	personal area network	local area network	virtual private network	none of these
449	A is a device that forwards packets between networks by processing the routing information included in the packet.	bridge	firewall	router	all of the mentioned

450	The first Computer mouse was built	Douglas	Oaniel	William	Robert
450	by	Engelbart	Coogher	English	Zawacki
451	Which of the following software could assist someone who can not use thieir hands for computer input?	Video conferen cing	Speech recognition	Audio digitizer	synthesizer
452	In EPROM cycles allowed.	1000	100	10	1
453	Pixel stands for	File format	Smallest Resolution	Program	None of these
454	designs floppy disk drivers.	Nokia	Intel	Sony	None of these
455	DMA means	Direct Memory Active	Direct Memory Access	Direct Method Access	None of these
456	relates with scanner.	TAIWAN	Media	Mouse	Mercury
457	gate.	NEC	AND	OR	NOT
458	cables can transmit data at high speeds.	UTP	Coaxial	Optical Fiber	Simple
459	If you will add any hardware, which of the following program you need?	Driver	Device Driver	Applicatio n Software	None of these
460	In system, buffers are placed in	Autoexec .bat	Config.sys	Both 1 & 2	None of these
461	Common extension of sound file is	WAVE	DAT	MIDI	None of these
462	The double sided and double density 5.25"flopy disk can store of data	1.44MB	1.22MB	1.2KB	1.2 MB
463	Who invented the super computer?	PT Franswor th	Charles Ginsberg	JH Van Tassell	None of these
464	How many types of memory dose a computer have ?	Four	Eight	One	Тwo
465	The part of computer in which data and proggrams are stroed is called	Memory	Software	Hardware	Processor
466	The storage devaice of computer is-	ALU	Control	RAM	Mouse

467	Main memory of computer is-	Internal	External	A and B both	Auxillary
468	Floppy dics is-	Internal	External	Volatile	A and B both
469	The contents of memory will not be lost, when the power goes off in	ROM	EPROM	EEPROM	Al the above
470	Which one is rendom access memory-	RAM	ROM	EPROM	All of these
471	What is the permanent memory built into your computer called ?	RAM	ROM	P-ROM	Al the above
472	When you save to this,Your data will remain inttact even when the computer is turned off	P-ROM	Motherboard	secondar y storage device	Primary storage divice
473	With a CD you can	read	write	read and write	either read or write
474	For permanent memory in computer objects used are	Floppy disc	Magnetic tape	Optical disk	All of these
475	RAM is amemory	External	Internal	main	Both (A) and (B)
476	What is the capacity of super computer floppy disc?	400 M	500 M	700M	None of these
477	Hard disc drives are cosideredstorage	flash	Non-volatile	Temporar y	Non- permanent
478	Built in memory of computer is	RAM	ROM	EPROM	PROM
479	Flash is	software	Hardware	ROM	RAM
480	IN the following which is not ram?	flash	P-RAM	D-RAM	S-RAM
481	Internal storage isstorage	primary	secondnary	virtual	none of these
482	in computer dictionary letters CD are used for	compress data	compress disc	computer ised disk	computerised data
483	In which memory is data lost by power off ?	disc	floppy	CD	RAM
484	CD is anmemory-	internal	external	auxiliary	a and b both
485	is not a type of RAM	megabyt e	64 megabyte	32 mega byte	574 megabyte

				То	۱ ۱
486	ROM is used	To read copact disc	To listen to music	To central digital informati on	none of these
487	which computer memory is used for storing programs and data currently being processed by the CPU ?	mass memory	internal memory	PROM	none of these
488	unit of storage capacity	Byte	Bit	Cubic meter	Bug
489	firmware we understand	phycical equipme nt used in a computer system	A set of instruction that cause a computer to perform one or more task	the people involved in the computin g processe d	A set of programs that it pri-installed into the read only memory of a computer during the time of manufacturing
490	Computer hardware which stores large volume data is called	Magnetic tape	disc	a and b both	none of these
491	The word 'memory' is related to	logic	control	input	storage
492	The content ofare lost when the computer is turned off,	storage	memory	input	output
493	The most common type of storage device are	persistent	optical	Magnetic	Flash
494	A disck's content that is recorded at the time of manufactured and that cannot be changed or erased by the user is	memory only	Run only	Write only	Read only
495	Any data or instructions naturel into memory of a computer is considered as	storage	output	input	information
496	CDs are of which shape ?	Square	Rctangular	Round	None of these
497	The instruction for starting the computer are housed in	RAM	CD-ROM	ROM chip	All of these
498	Where is data saved permanently ?	memory	storage	CPU	Printer
499	A(n)user laser technology to store large amount of information	Floppy disc	CD-ROM	hard disc	ED-ROM

500	RAM isand	volatile,te mporary	Nonvolatile permanent	nonvolatil e,tempor ary	None of these	
-----	-----------	------------------------	--------------------------	-------------------------------	---------------	--

Each Section has 100 Multiple Choice Questions (MCQ). Each question has four choices. Student to Tick the correct answer.

Sr. No.	Question	Α	В	С	D
501	CD ROM disc	has more storage capacity than a CD-R	hold less data than a floppy disk	cannot be erased and rewritten	can be written only once
502	How is it possible that both programs and data can be stored on the same floopy disk ?	A floppy disk has two sides, one for data and one for programs	programs and data are both software, and both can br stored of any memory device	A floppy disk has to be formatted for one or for the other	Floppy disks can only storedata,not programs
503	Secondary storage	dose not require constant power	dosse not use magnetic media	consist of for main types of devices	None of these
504	The place where the computer stores programs and data is called	memory	storehouse	Storage unit	Backup
505	During processing data, programs and processed information are held temporality in	Secondar y storage	ROM	RAM	CPU
506	A flat metallic disk that contains a large amount of permanently stored information read optically is called a	Moniter	ALU	CD-ROM	RAM
507	which type of memory holds only the program and data that the CPU is presently processing ?	CMOS	ROM	RAM	ASCII
508	what characteristic of read-only memory (ROM) makes it usefull ?	ROM informati on can be easily updated	Data in ROM is nonvolatile,tha t is it remains there even without electrical power	ROM provides very large amounts of inexpensi ve data brands of	None of these

				computer	
				S	
509	To put information in a life on a magnetic disk, or in a computer's memory, so that it can be used later	Store	Ship	Shift	Center
510	A placein the computer system where data and programs are tempoerally stored	paste	Open	Memory	pocket
511	A removable megnetic disc that holds information	Floppy disc	hard drive	Moniter	Portable
512	the primary device that acomputer uses to store information	τv	Storehouse	hard drive	None of these
513	All of the following storage media have read and write capacity except	flash memory cards	CD-ROMs	hard disc	Floppy disks
514	The main system board of acomputer is called the.	integrate d circuit	motherboard	processo r	microchip
515	Which of the following is a part of the system unit ?	CPU	Moniter	floppy disk	None of these
516	The box the contains the centrel electronic comonents of the computer is the	motherbo ard	system unit	input device	peripheral
517	Storage device found inside the computer-	CD ROM	Zip Disk	super disk	hard disk
518	A device that provide emergency power to your computer, conditions the vpltage, and protects powers surges is called a	PSU =power supply unit	USP = Universal surge protector	UPPS =Univers al power protectio n and supply	UPS = Uninterruptibl e Power and supply
519	Which of the following is a part of system unit ?	Moniter	CPU	CD-ROM	floopy disc
520	A UPS	limits damage caused by fluctuatin g levels of electricity	provides battry backup for a limited time	delivers electronic message via a bus	None of these

521	A disk on which you store information-	plate	data disc	paper disc	TV disc
522	A computer's hard disc is	operating system	computer system	computer hard ware	None of these
523	Ais a divice that not only provides surge protection, but also furnishes your computer with battery back up power during a power outage.	surge strip	USB	UPS	battery strip
524	The motherboard is the	circuitboa rd that house periphera I	same as the CPU chip	the first chip that is accessed when the computer is turned on	circuit board the contains a CPU and other chip
525	where is the disk put in a computer ?	in the modem	in the hard drive	in to the CPU	in the disc drive
526	thecontrols communications for entire computer system.	arithmetic -logioc unit	semiconducter	motherbo ard	coprocessor
527	The system component that controls and manipulates data in order to produce information is called the	keyboard	microprocesse r	moniter	mouse
528	These provide expansion capability for a compter system	sockets	slots	bytes	bays
529	An exampal of processingdivice would be	a magnetic ink reader	a tablet PC	Special function cards	scanners
530	Ais hardware used to read disks.	floppy disk	hardware	input divice	disk drive
531	Theis the box that houses the most important parts of a computer system.	software	hardware	input divice	system unit
532	hard drives are permanently located inside the system unit abd are not designed to be removed,unless they need top be repaired or replaced	static	Internal errors	external	remove

	What reside on the motherboard				
533	and connects the CPU to other components on the motherboard ?	Input unit	system bus	ALU	primary memory
534	Which of the followingproduces high quality output	impact printer	Non impact printer	plotter	a and b
535	the work done by a computer opretor is displayed in which part of computer ?	CPU	VDU	ALU	IBM
536	Which of the following is used to input in computer in digital form ?	Mouse	Keyboard	scanner	Touch screen
537	when was the computer mouse invented by Douglas Engelbart in standford reserch Laboratory	1977	1980	1952	None of these
538	How many types of printers are there ?	one	two	three	four
539	A character printer prints characters per seconds.	100 to 200	5 to 50	200 to 400	5 to 75
540	A line printer printslines per minutes.	100 to 200	5 to 50	5 to 100	400 to 200
541	A scanner Looks like amachine.	type machine	Franking machine	photocopi er	Cyclostyle
542	How many arrow keys are there in a computer ?	one	two	three	four
543	In any current available keyboard , how many times number key are repeated ?	one	two	three	four
544	The slate shaped object below mouse is called	mouse cover	mouse pad	mouse port	None of these
545	Which of the following is an output device ?	printer	moniter	mouse	a and b both
546	what can be the form of data ?	Written	un written	Visual	a and b both
547	Link between computer an ahuman is possible by	input and output	input	output	CPU
548	Which of the following is not a type of input and output ?	sound	light	Visual	None of these
549	Which of the following works as mouse ?	keyboard	scanner	icon	track ball
550	Generally which button of the mouse is used for OK ?	left	right	middle	wheel

551	is fast speed printer.	Laser printer	jet printer	thermal printe	None of these
552	LCD stands for	lead crystal device	light central display	liquid central display	liquid crystal display
553	The general method for to input the text and numerical data in computer is by	keyboard	scanner	printer	None of these
554	Output deices make it possible to	View and print a data	scan a data	input data	sending data
555	Hard copy of a document is	printed on printer	stored in floppy	store in CD	store in hard disk
556	Which of the following groups have only input device ?	Mouse, keyboard , moniter	mouse, keyboard, printer	mouse, keyboard , plotter	mouse, keyboard, scanner
557	Any data and instruction enterd in the memory of a computer is	storage	input	Output	information
558	To make the number pad act as a directional arrow, we press	Num lock	caps lock	Arrow lock	shift
559	Which key is used in combination with another key to perform a specific task ?	Function	Spacebar	Arrow lock	control
560	Ctrl, Shift and Alt are calledkeys.	modifier	function	adjustme nt	None of these
561	Thw pattern printed lines on most produs are called	price	OCR	scanner	bar codes
562	What types of device is a computer printer ?	input	output	software	storage
563	A scanner scans	picture	text	a and b both	None of these
564	What would you do to highlight a word ? You position the cursor near to the word, and then	Drag mouse while holding button down	click mouse once	Roll mouse around	roll and then click mouse
565	Acan make it easier to play games.	mouse	joystick	keyboard	pen

566	In MICR, c stand for	code	colour	computer	character
567	Soft copy is an intangible output, so then what is hard copy ?	The physical parts of the comp[ute r	The printed parts of the computer	The printed out put	the physical output device
568	A printer is this kind of device	input	word processing	processin g	Output
569	The most common method of entering text and numerical data into computer system is through the use of a	keyboard	scanner	printer	Output
570	A keyboard is this kind of device	black	input	output	Word processing
571	Which part of a computer displays the work done ?	RAM	Printer	ROM	monitor
572	Codes consisting of bars or lines of varying widths or lengths that a computer redable are known as	An ASCII code	A magnetic tape	An OCR scanner	a bar code
573	Whenever we have to give space between the two words while typing on a PC we have to press a key known as	Backspac e	Shift	Ctrl	Spacebar
574	Thekey and thekey can be used in combination with other keys to perform shortcuts and special tasks.	control,Al t	function, toggle	Delete, insert	capslock, numlock
575	Which type of divice is the computer monitor ?	input	output	processin g	software
576	The primary output device for computer is a	video monitor	Printer	keyboard	mouse
577	provides the means to move the pointer on the screen and give information to the computer by clicking its buttons.	Scanner	mouse	keyboard	program
578	Soft copy refers to	Printed output	Music sound	Screen output	Digitizing

		Because			]
579	Why is the CAPS LOCK key referred to as a toggle key ?	its function goes back and forth every time it is pressed	Because it cannot be used for entering time it is pressed	Because it cannot be used to delete	none of these
580	One puts information into the computer by pressing this key	Caps lock	Tab	Enter	Esc
581	The key that must be pressed each time command or informationis enterd	Esc	Return/Enter	Delete	Home
582	What term used to describe the mouse to m,ove an item on thescreen to new location ?	click	double-click	drag and drop	point
583	To select text by shading as you drag the mouse arrow over the text is seffered to as	clip art	highlight	fetch	decode
584	A button that makes characters either upper or lower case and numberto symbols	monitor	shift key	icon	mouse
585	Pick the odd one	Mouse	Scanner	keyboard	none of these
586	Letters,numbers,and symbols found on a keyboard are	Icon	Screen	Keys	Menu
587	You can use the tab key to	move a cursor across the screen	indent a paragraph	move the cursor down the screen	only (a) and (b)
588	Information that comes from an external source is fed in to computert software is called	input	output	throughp ut	reports
589	Which keys enable the input of numbers quickly ?	Function keys	The numeric keypad	Ctrl,shift and alt	Arrow keys
590	You use a (n), such as a keyboard or mouse, to input information.	storage device	processing device	input device	None of these
591	A(n) camera is a peripheral device used to capture still images in a digital format that can be easily transrred into a computer and	digital	analog	classic	film

	manipulated using graphics soft ware.				
592	Digital photos and scanned images are typically stored as Graphics with extensions such as .bmp,.jpg, .tif, or gif.	bitmap	vector	either vector or bitmap	None of these
593	Which device is used as the standred pointing device in graphical user Enviroment ?	keyboard	Mouse	joystick	track ball
594	Which of the following is not an output device ?	Flotter	Printer	Moniter	Touch screen
595	The arrow keys can be used to	more the cursor in thwe text that has already been entered	more the cursor while deleting text	same the documen t	None of these
596	An error is also known as	bug	Cursor	Debug	Icon
597	In order to tell Excel that we are entering a formula in cell, we must begin with an operator such as?	\$	@	=	+
598	Which of the following have the fastest access time?	Semicon ductor Memorie s	Magnetic Disks	Compact Disks	Magnetic Tapes
599	Cursor is a	Pixel	Pointing device	Thin blinking line	None of these
600	Which of the following is not anti viruses software?	NAV	Oracle	F-Prot	McAfee

	a subset has a subset of
501	cannot be erased and rewritten
-	programs and
	data are both
502	software, and
	both can br stored
	of any memory
	device
503	dose not require
505	constant power
504	Storage unit
505	RAM
506	CD-ROM
507	RAM
	Data in ROM is
	nonvolatile,that is
508	it remains there
500	even without
500	electrical power
509	Store
510	Memory
511	Floppy disc
512	hard drive
513	CD-ROMs
514	motherboard
515	CPU

# GAMING

MADE BY ASSASSINOZOC

A video game or computer game is an electronic game that involves interaction with a user interface or input device – such as a joystick, controller, keyboard, or motion sensing device – to generate visual feedback.

### Each Section has 100 Multiple Choice Questions (MCQ). Each question has four choices. Student to Tick the correct answer.

Sr. No.	Question	A	В	С	D
601	The Second Generation was based on	Vacuum Tube	Transistor	Silicon Chips	Bio Chips
602	In which mode Windows starts with only the core drivers and services?	Safe Mode	Normal Mode	Quick Mode	Repair Mode
603	Which disk format can access by MS-DOS 6.0?	OSX	NTFS	FAT	EXT2
604	The output quality of Printer is measured by	Dot per sq. inch	Dot per inch	Dots printed per unit time	All of the above
605	ASCII stands for	American Standard Code of Informati on Interchan ge	American Scientific Code of International Interchange	American Standard Code of Intelligen ce Interchan ge	American Scientific Code of Information Interchange
606	Which generation of computers is covered by the period 1964-77?	First	Second	Third	Forth
607	A digital device that processes data is known as	Data processo r	Data entry	DBMS	Database
608	Computer cannot do anything without a	Chip	Memory	Output device	Program
609	Which one of the following is the first second-generation computer?	IBM 7090	IBM 801	IBM 7070	IBM 650
610	What is the term which represents the use of links between information of all sorts whether text, graphics, video oi audio-based?	Hypertext	Hypermedia	HyperCar d	Wildcard
611	Offline device is	a device which is not connecte d to CPU	a device which is connected to CPU	a direct access storage device	an I/O device

612	Who is called the "grand father" of the computer?	Blaise Pascal	Charles Babbage	Joseph Jacquard	Dr. Herman Hollerith
613	The CPU chip used in a computer is partially made out of	silica	copper	Silver	carbon
614	Magnetic tape can serve as :	secondar y-storage media	output media	input media	All of the above
615	A device that converts digital signals to analog signals is	A packet	A modem	A block	Both (A) and (B)
616	The first movie released in 1982 with terrific computer animation and graphics was	Star wars	Tron	Forbidde n planet	Dark star
617	The first mechanical computer designed by Charles Babbage was called	Abacus	Analytical Engine	Calculato r	Processor
618	Where is the headquarters of Intel located?	Tucson, Arizona	Redmond, Washington	Richmon d, Virginia	Santa Clara, California
619	Who co-founded Hotmail in 1996 and then sold the company to Microsoft?	Shawn Fanning	Ada Byron Lovelace	Sabeer Bhatia	Ray Tomlinson
620	Who developed Yahoo?	Dennis Ritchie & Ken Thompso n	David Filo & Jerry Yang	Vint Cerf & Robert Kahn	Steve Case & Jeff Bezos
621	Who built the world's first binary digit computer: Z1?	George Boole	Konrad Zuse	Ken Thompso n	Alan Turing
622	Which Intel chip was the first to support a 32-bit bus architecture?	286	486SI	Pentium	386DX
623	On what date was the debut of the first IBM Personal Computer?	28876	29454	29963	29810
624	Which cable is used to connect your television set with cable TV Operator?	Co - axial Cable	Radio Cables	Fiber Optic	None of These
625	is destroys the computer data.	Printer	DOS	Virus	ROM
626	Information can be stored in one CD-ROM.	600 MB	700 MB	800 MB	1000 MB

627	GUI is used as an interface between	Hardware and Software	Man and Machine	Software and User	None of these
628	Comparing data values and taking decisions is called operation.	Logical	sorting	Arithmeti c	None of these
629	RAM stands for	photosho p raw data	right about mouth	remark	None of these
630	FIFO stands for	fiber imulson interprete r object	formula translation	first in first out	none of these
631	LAP stands for	link control protocol	link access program data	link access procedur e	local area network
632	IF stands for	internet engineeri ng	initial force	none of these	input file
633	CSU stands for	Carrier sensing unit	Carrier sense multiple access	Channel service unit	None of these
634	WAP stands for	wireless applicatio n protocol	wide area protocol	wide area informati on service	wireless access protocol
635	SCR stands for	sustained cell rate	significant cell rate	single channel per carrier	none of these
636	IBG stands for	l`nternet Activities Board	International Business Governance	Inter Block Gap	All of these
637	The termrefuse the set of electronic instruction that tells the Hardwafe what to do.	Data	Hardware	Software	None of these
638	A computer performs following operation on data	Calculati on	Storage/retriev el	Logic/co mparison	All of these
639	Who invented the high level language c?	Dennis M. Ritchie	Niklaus Writh	Seymour Papert	Donald Kunth

640	BCD is	Binary Coded Decimal	Bit Coded Decimal	Binary Coded Digit	Bit Coded Digit
641	The first computer introduced in Nepal was	IBM 1400	IBM 1401	IBM 1402	IBM1403
642	In the following devise is a plug and play device.	Printer	Zip Drive	Key board	Scanner
643	Which of the following can be used as primary memory?	Cartridge	Optical disk	Hard disk	None of these
644	Add, Subtract, Divide, Multiply and Logic operations are performed by	Registers	Control Unit	ALU	None of these
645	A is a collection of button which represents various operations that can be carried out within an application.	Buttons	Menu	Toolbar	None of these
646	The gigantic work of simulating the airflow around an entire aircraft can only be done by using fast	Micro Compute rs	Mini Computers	Super Compute rs	None of these
647	Which of the following admirable capability is provided in most of the workstations?	Numeric Processi ng	Graphics	Text Manipulat ion	None of these
648	The user protection feature of an operating system is required in	Single user systems	Multiuser systems	Both A and B	None of these
649	Which of the following software checks the syntax errors in program	Compiler	Interpreter	Both of A and B	None of these
650	Which of the following description is related to floppy disk?	9 track, 16 BPI	Double Sided, Double density	33 Mhz, Zero wait time	40MB space
651	The Difference between memory and storage is that memory is and storage is	Temporar y, Permane nt	Permanent, Temporary	Slow, Fast	None of these
652	A Floppy disk contains	Circular tracks only	Sectors only	Both Circular tracks and Sectors	None of these
653	Which of the following is not a part of computer hardware	Keyboard	CPU	Operatio n System	Motherboard

654	Joy Stick is an example of	Input Device	Output Devise	Primary Memory	Secondary Memory
655	Dialog box section in which we may enter data are	Spinners	Command Buttons	Sliders	All of these
656	First calculating device is-	clock	diffrence engine	calculatto r	Abacus
657	First mechanical calculator was invented by-	Josep Marie Jacquqrd	John Mauchley	Blaise Pascal	Hawared Aiken
658	Who invented punch card ?	pavrus	Jacquard	Pascal	None of these
659	Computer that was made before 1st generation computer	Mechanic al	electro michanical	electrical	All of these
660	Analog computer is	A machine which work on data which is always changea ble	An aerithmetic high level	communi cate at low level	None of these
661	What is laptop ?	computer use in clinical laboratry	computer made ley compact	small, light weight computer which fits in suitcase	All of these
662	Super computer	it processe s data of more than one user at a time	it is a fast and costly computer system	it is used in large organisati ons	All of these
663	Cooputer's basic arithitecture was devloped by	Jhone Van Neumann	charles Babbage	Blaise Pascal	Jordan Murn
664	Charaacteristic of fifth generation computer is	Used in home	Artificial intelligence	Very loe cost	None of these
665	A Computer portable and easy to carry by traveller is	super computer	Laptop	Mini computer	file servers

666	In production of I.C. chip of computer what is needed in the	Chromiu	Silicon	Platinum	Gold
	following	m	Gilleon	Thatman	Cold
667	IN which generation did multiprogramming start ?	First generatio n	Second generation	Thired generatio n	fourth generation
668	Multics opreting system fore mainfirme was developed by	Infuses	Microsoft	Jerman Laborator y	Bell laboratory
669	First mechanical calculator of charle babbage is known as	Palmtop	Processor	Calculato r	None of these
670	First super computer of the world was devloped in	1978	1976	1980	1981
671	computer for personal use is	Mini computer	Super computer	Micro computer	mainframe computer
672	First super computer devloped in india is	Param	Aryabhatt	Buddha	Ram
673	Faster computer is	Mini computer	Super computer	Micro computer	Mainfirme
674	Which generation of computer is worked with FORTRAN ?	First	Second	thired	Fourth
675	IN which generation was microprocessor introdyced ?	First	Second	thired	Fourth
676	Remote processing and time sharing was introduced ingenertion :	First	Second	thired	Fourth
677	Abacus was devloped in	India	china	America	Rassia
678	Remedy in first generation computer was	Small size	Large size	No heat generatio n	B and C both
679	Types of computer on working style is -	Digital	Analog	Micro	a and b both
680	Microcomputer is convereted into super minicomputer by using thesuper chip	80586	80386	70508	70309
681		Optical	Micro	Super mini	mainframe
682	Processing capacity of microcomputer is Per second	one lac	two lac	five lac	four lac

683	Imac is a	Processo r	Modem	Machine	network
684	analytical engine was devloped by	Lovelace	H.Aiken	Charls Babbage	All of these
685	What is a main characteristic of computer in the following option ?	File	Game	Speed	CD
686	Main electronic part in first generation computer was	Transiste r	VLSI	Vacuum tube	IC
687	Which one is not a type of computer the basis of size	Micro computer	Mini computer	Super mini computer	optical computer
688	is not a micro computer	Home computer	personal computer	Atomic computer	None of these
689	At first punched card was used by	balise pascal	haward aiken	jhon mauchaly	joshep marie
690	Great contributor in devlopment of computer was by	H.hallerilt	C.Babbage	Blaise Pascal	None of these
691	Great contributor in devlopment of blueprint of rhythmical computer was	H.hallerilt	C.Babbage	Blaise Pascal	Willium buras
692	Modem computer was developed in	1946	1950	1960	1965
693	Who developed integrated chip ?	C.V.rama n	Robert Nayak	C.Babba ge	j.s.kilbi
694	Which material is layered at megnetic disk ?	iron oxide	phosphorous bentaoxide	magnesiu m oxide	None of these
695	The most powerfull computer is	super computer	Micro computer	Mini computer	All of these
696	In a silicon chip complete electronic circuit with transisstors and other the electronic device is called	work station	CPU	Integrate d circuit	magnetic disk
697	The digital computer is worked on the theory of	Calculati on	Measurement	Electric	logical
698	The super computer is distinguish from other computer by	high cost	problem of airconditiones	large memory and calculatin g power	many uses
699	A modem digital computer uses,number system	binary	decimal	hexadeci mal	All of these

700	Which generation was developed by discovery of I.C	First generatio n	Second generation	third generatio n	fourth generation

### **INTERNET OF THINGS**

The Internet of things describes the network of physical objects—a.k.a. "things"—that are embedded with sensors, software, and other technologies for the purpose of connecting and exchanging data with other devices and systems over the Internet.

Each Section has 100 Multiple Choice Questions (MCQ). Each question has four choices. Student to Tick the correct answer.

Sr. No.	Question	Α	В	С	D
701	The main characteristic of 4th generation was	Transister	VLSI	lc	Vacuum tube
702	CRYA is a	Mini computer	Super computer	Micro computer	mainframe computer
703	Which of following refers to the fastest, biggest and most expansive computer ?	Personal computer	Super computer	Laptop	Note book
704	Which type of computer could be found in a digital watch ?	Mainframe	Super computer	note book computer	Embedded language
705	The first computer programmed using	Assembly language	Machine language	source code	None of these
706	Digital computers use asystem to encode date and programs.	semi conductor	Machine language	binary	RAM
707	A ccomputer falls into thecategory if it is, at the time of construction, are of the fastest computer in the world.	mini computer	Super computer	microcom puter	a and b both
708	Who is known as the father of computers?	Tim Berners Lee	Vinton Cerf	charles Babbage	Blaise pascal
709	What is the internet country code for India	com	ind	in	indy
710	What does AMD stands for what?	Advanced Micro devides	American Micro Devices	Atos Motion Detectors	Asus Micro Devices
711	What is the term used for the Citizens of the internet?	Citinets	Netizens	Citiwebs	Webinets
712	Valves are a part of which Generation of computers?	Fourth	First	Second	Third
713	What two words make up the word MODEM?	Modifier Demodifier	Modern Denominator	Modulato r Demodul ator	Multiple Defibrillator
714	What function is performed by the use of the Ctrl+S keys in MS Office?	Open	Select All	Paste	Save

	1				
715	On a power point presentation which key will begin the slideshow from the beginning?	F1	F8	F5	F2
716	Aamir Khan is the brand ambassador for which of these Digital TV Service Providers?	DD TV	Dish TV	BIG TV	Tata Sky
717	Akio Morita is the founder of which company?	Toshiba	Samsung	LG	Sony
718	Jack Kilby is associated with which of these?	Interconne ct Calls	Integrated Circuits	Internal Circuits	Integrated Computers
719	Which of these is an input device?	Monitor	Light pen	Speaker	Printer
720	Which numeral system does a digital computer use?	Decimal system	Binary system	Quaterna ry system	Centenary system
721	Bit, a unit of computer stands for what?	Bidecimal Dial	Binary digit	Bilingual Informati on Technolo gy	Binary informing Degree
722	Martin cooper is the father of which famous device?	Web browsers	e-mails	mobile phones	calculators
723	Expand LCD?	Light Controlled Device	Light Crystal Diode	Light Coloured Display	Liquid Crystal Display
724	What is the shortcut for undo in MS Office?	Ctrl + Z	Ctrl + U	Ctrl + X	Ctrl + A
725	What does USB stands for?	Universal Serial Bus	United Standard Binary	Universal Serial Bits	Unique Serial Bit
726	If SMS stands for short Messaging Service, what does MMS stand for?	Many Media Service	Motorola Media Service	Minor Messagin g Service	Multimedia Messaging Service
727	Which OS has a green robot as its logo?	Explorer	Bada	Opera	Android
728	Which country's official country domain is .gb?	Gambia	Greenland	Great Britain	Greece
729	Expand XML?	Extended Markup Language	Xray Managed Language	Exclusive Monitor Languag e	XM Lingo
730	Flatron is a monitor from which company?	Samsung	Acer	Philips	LG

731	Robert Noyce is the co- founder of which company?	Intel	GE	Microsoft	Disney
732	You can use to copy selected text; and to paste it in a document.	CTRL + C, CTRL + V	CTRL + C, CTRL + P	SHIFT + C, ALT + P	CTRL + D, CTRL + A
733	Numbers in table columns are usuall	right- aligned	left-aligned	justified	centered
734	Each box in a spreadsheet is called a	cell	record	field	table
735	A collection of related files is called	Character	Field	Data base	Record
736	When a file is saved for the first time	a copy is automatic ally printed	file name and folder name must be the same	it does not need a name	it must be given a name to identify it
737	In which group do we work at the time of text formatting in word ?	Table, Paragraph and Indexes	Paragraph, Indexes and Sections	Characte rs, sections and paragrap hs	Indexes, Characters and Tables
738	The letter and number of the intersecting column and row is the—	Cell location	Cell position	Cell address	Cell contents
739	To save an existing file with new name at new location we should use command.	Save	Save and replace	Save as	New file
740	Forms that are used to organize business data into rows and columns are called	Transactio n sheets	Registers	Business forms	Spreadsheets
741	In power point, the Header & Footer button can be found on the insert tab in what group?	Illustration s group	Object group	Text group	Tables group
742	The PC productivity tool that manipulates data organized in rows and columns is called a	Spreadshe et	Word processing document	Database record manager	EDI creator
743	Which Powerpoint view displays each slide of the presentation as a thumbnail and is useful for rearranging slides ?	Slide Sorter	Slide Show	Slide master	Slide Design

744	If a previously saved file is edited	it cannot be saved again	the changes will automatically be saved in the file	the file will only have to be saved again if it is more than one page in length	the file must be saved again to store the changes
745	To print a document	select the Print command and then select OK	select the Ready Printer command then select OK	type Print and then press Enter	close the document, select the Print command, then select OK
746	Which option is correct to enter the charts in ms excel—	Formulas> >charts	Data>>charts	Insert menu>>c harts	View>>charts
747	A is a collection of information saved as a unit.	folder	file	path	file extension
748	What is a list of data files of any database called ?	Data diary	Data list	Data disc	Data dictionary
749	What is the overall term for creating, editing, formatting, storing, retrieving and printing a text document ?	Word processing	Spreadsheet design	Web design	Database management
750	What is the main folder on a storage device called ?	Root directory	Interface	Device driver	Platform
751	A file is often referred to as a (n)	Wizard	Document	Pane	Device
752	Excel workbook is a collection of	Chart	Word book	Workshe et	a and c
753	Microsoft Office is an example of a	closed source software	open source software	horizontal market software	vertical market software
754	Which of the following is not related to text formatting ?	Line spacing	Text spacing	Margin change	Searching
755	To correct the spelling in Ms-Word we use	Spellpro	Spellcheck	Outlook Express	All of These
756	In a spreadsheet program the contains related worksheets and documents.	Workbook	Column	Call	Formula

757	Which one of the following software applications would be the most appropriate for performing numerical and statistical calculations ?	Data base	Document processor	Graphics package	Spreadsheet
758	The word wrap feature-	Automatic ally moves the text to next line when necessary	Appears at the bottom of the document	Allows you to type over text	Is the short horizontal line indicating the end of the document
759	The background of any word document	is always white colour	is the colour you preset under the option menu	is always the same for the entire documen t	Can have any colour you choose
760	What is a default file extension for all word documents ?	тхт	WRD	FIL	DOC
761	Text in a column is generally aligned	Justified	Right	Center	Left
762	A directory within a directory is called	Mini directory	Junior directory	Part directory	Sub directory
763	For opening and closing of a file in excel, you can use which bar ?	Formatting	Standard	Title	Formatting or Title
764	You click at B to make the text	Italics	Underlined	Italics and under lined	Bold
765	For creating a document, you use command at file menu.	Open	Close	New	Save
766	You can start Microsoft word by using button.	New	Start	Program	Control panel
767	In excel, charts are created using which option ?	Chart wizard	Pivot table	Pie chart	Bar chart
768	In page preview mode	You can see all pages of your document.	You can only see the page you are currently working on.	You can only see pages that do not contain graphics.	You can only see the title page of your document.

	1	1	1		
769	File extensions are used in order to	Name the file	Identify the file	Answer the file name is not last	Identify the file type
770	Which one of the following software applications would be the most appropriate for performing numerical and statistical calculations ?	Database	Document processor	Graphic package	Spreadsheet
771	Which elements of a word document can be displayed in colour ?	Only graphics	Only text	All elements	All elements, but only if you have a colour printer
772	Which keyboard shortcut bolds selected text ?	Ctrl + B	Alt + B	File / format /bold	These all
773	A collection of related information sorted and dealt with as a unit is a	Disk	Data	File	Floppy
774	MS-Word is an example of—	An operating system	A processing device	Applicatio n software	An input device
775	The blinking point which shows your position in the text is called—	Blinker	Cursor	Causer	Pointer
776	Which application is commonly used to prepare a presentation/ slide show?	Photoshop	Power point	Outlook Express	Internet explorer
777	The quickest and easiest way in word, to locate a particular word or phrase in a document is to use the command.	Replace	Find	Lookup	Search
778	What kind of software would you most likely use to keep track of billing account ?	Word processing	Electronic publishing	Spreadsh eet	Web authoring
779	What are bas, doc and htm examples of ?	Data bases	Extensions	Domains	Protocols
780	Ais a unique name that you give to a file of information.	Device letter	Folder	File name	File name extension
781	Editing document consists of reading through the document you've created, then-	Correcting your errors	Printing it	Saving it	Defeating it

782	In a database, fields store numbers used to perform calculation.	Next	Кеу	Alphanu meric	Numeric
783	All of the following terms are associated with spreadsheet software except—	Worksheet	Cell	Formula	Virus detection
784	Which of the following is not true about computer files ?	They are collections of data saved to a storage medium.	Every file has a file name.	A file extension is establish ed by the user to indicate the files content	Files usually contain data.
785	The main directory of a file is called the directory.	Root	Sub	Folder	Network
786	To add or put into your document such as a picture or text use—	TV	Insert	Push in	Squeeze in
787	What is the main folder on a storage device called ?	Platform	Interface	Root Directory	Home page
788	For creating a document, you use command at file menu.	Open	Close	New	Save
789	A(n)is created by an application.	Executabl e file	Software program	Documen t	Operating system
790	Two different files can have the same name if	They are in different folders.	They are on different drives.	Never.	The names are capitalized differently.
791	Meaningful filename helps in easy file	Storing	Accessing	Identificat ion	Printing
792	A program that enables you to perform calculations involving rows and columns of numbers is called a 	Spreadshe et program	Word processor	Graphics package	Window
793	Toa document means to make changes to its existing content.	Format	Save	Edit	Print
794	Periodically adding, changing and deleting file records is called file	Updating	Removing	Restructu ring	Renewing
795	How do you save a presentation under a new file name ?	Select the file menu and	When you close power point the file	Select the file menu	The file will automatically be saved

		choose save as	will automatically be saved	and choose save	under the new name if you change the title
796	Saving is the process of	copying a document from memory to a storage medium	making changes to a document's existing content	changing the appearan ce, or overall look, of a documen t	developing a document by entering text using a keyboard
797	When computer usersa document, they change its appearance.	Edit	Create	Save	Format
798	What menu is selected to print ?	File	Tools	Special	Edit
799	A saved document is referred to as a	File	Word	Folder	Project
800	A command that takes what has been typed into the computer and can be seen on the screen and sends it to the printer for output on paper	Print	Return	Jump	Attention

## NETWORKING

A computer network is a group of computers that use a set of common communication protocols over digital interconnections for the purpose of sharing resources located on or provided by the network nodes.

Each Section has 100 Multiple Choice Questions (MCQ). Each question has four choices. Student to Tick the correct answer.

Sr. No.	Question	Α	В	C	D
801	To find a saved document in the computer's memory and bring it up on the screen to view	Reverse	Rerun	Retrieve	Return
802	Allows you to print	Ribbon	Monitor	Go now	Control-P
803	The different styles of lettering in a word processing program	Font	Calligraphy	Writing	Manuscript
804	To change written work already done	File	Edit	Cut	Close
805	To exit the program without leaving the application	File	Edit	Сору	Cart away
806	A command that saves what you are working on into the hard drive, or onto a disk	View	Hold	Save	Go
807	A command to get a file you worked on from the memory where it was stored	Close	Delete	Open	Get it
808	A program that works like a calculator for keeping track of money and making budgets	Calculato r	Spreadsheet	Budgeter	Financier
809	What menu is selected to save or save as ?	Tools	File	Format	Edit
810	A includes the file name and possibly a directory of folder	File informati on packet	File button	File directory	File specification
811	To print a document, press then press Enter.	Shift + P	Ctrl + P	Alt + P	Esc + p
812	A(n) in text that you want printed at the bottom of the page.	Header	Endnote	Footnote	Footer
813	What menu is selected to change font and style ?	Tools	File	Format	Edit
814	Items such as names and addresses are considered	informati on	input	records	data
815	A telephone number, a birth date, and a customer name are all examples of	a record	data	a file	a database

816	Which of the following contains information about a single "entity" in the database—like a person, place, event or thing ?	query	form	record	table
817	Numbers in table columns are usually	right- aligned	left-aligned	justified	centered
818	By default, your documents print in mode.	Landscap e	Portrait	Page Setup	Print View
819	Which type of file is created by word processing programs ?	database file	storage file	workshee t file	document file
820	Data (information) is stored in computers as	files	directories	floppies	matter
821	The name a user assigns to a document is called a(n)	filename	program	record	data
822	What is the main folder on a storage device called ?	Platform	Interface	Root directory	device driver
823	In order to e-mail a Word document from within Word	Go to file / Send To / Mail Recipient	Save the file as an e-mail attachment	Start Outlook and attach the file while open in Word	This is an impossible operation
824	The feature in Word automatically corrects certain spelling, typing, capitalization, or grammar errors.	AutoFix	AutoSpell	AutoMark	AutoCorrect
825	You organize files by storingthem in	archives	folders	indexes	lists
826	In order to create columnar data in Word you need to	Tab consecuti vely until cursor reaches the desired place	Set tabs or use the Table menu	You need to use Excel	Press the space bar until your cursor reaches the desired place
827	When you want to move some text from one page to a different page, the best method is	drag and drop	cut and paste	delete and retype	find and replace
828	A red wavy line under a word indicates that the word	is too long for	is not in the dictionary file and therefore	is not appropria te for that	is a verb

		the line of text	might be spelt incorrectly	particular sentence	
829	When creating a word-processed document, this step involves the user changing how words on the page appear, both on the screen and in printed form	Editing text	Inserting tables and indexes	Formattin g text	Proofing documents
830	When a file is saved for the first time	a copy is automatic ally printed	it must be given a name to identify it	it does not need a name	it only needs a name if it is not going to be printed
831	The acronym DBMS stands for what ?	double- blind manage ment setup	document binder management system	data binding and marketin g structure	None of these
832	Software you can use to create a budget is called	word processin g software	graphics software	utility software	spreadsheet software
833	Numbers and formulae en ed in a cell are called	labels	numeric entries	intersecti on	text
834	The red wave underline in MS-Word document indicates—	Spelling errors	Grammar errors	Address block	Printing errors
835	ALU Stands for—	Arithmeti c logic unit	Arithmetic large unit	Arithmeti c long unit	All
836	Which of these is CPU ?	Chip	Box	Circuit	Peripheral
837	Basic operation done by computer is—	Arithmeti c operation	Logical operation	Data storage	All
838	is called brain of computer	CPU	Monitor	Modem	Software
839	Which of these establishes link between V.D.U. and Keyboard ?	Printer	Mouse	C.P.U	Terminal
840	Whcih part of the computer is used for calculating and comparing ?	ALU	Control unit	Disk unit	Modem
841	Function of CPU is —	Arithmeti c calculatio n	Comparison between the value of two objects	Search of desired data in artificial memory	None of these

842	Which unit controls the movement of signals between CPU and I / 0 ?	ALU	Control unit	Memory unit	Secondary storage
843	Computer is named as intelligence.	pure	human	artificial	all
844	The three main parts of the processor are	ALU, Control unit and Registers	ALU, Control unit and RAM	Cache, Control unit and Registers	Control unit, Registers and RAM
845	is the function of the Central Processing Unit of a computer ?	Creates invoices	Performs calculations and processing	Deletes Data	Corrupts the data
846	Capacity of computer is —	Limited	Unlimited	Low	High
847	Controlling part of computer is—	Printer	Keyboard	C.P.U.	None of these
848	Computer 1.A device which is able to store data 2.A device which is able to analyse data 3.A device which is able to maintain full security 4.Sometime attacked by virus Select a correct answer—	1 and 2	1, 2, and 3	1, 2 and 4	All
849	The basic computer processing cycle consists of	Input, processin g and output	Systems and application	Data, informati on and applicatio ns	Hardware, software and storage
850	Compare is —	Arithmeti c function of ALU	Logical function of ALU	Input and output of ALU	All
851	Theory for working of computer is—	Input	Output	Process	All
852	Main component of CPU is—	Control unit	Memory	ALU	All
853	Processed data of computer is called—	Input	Output	Process	All
854	Function of CPU is—	Control input and output device	Immediate storage of data	Read the instructio n and give comman d	All

855	What is output ?	Which is taken by user to processo r	Which is get to processer by user	Which is get to user from processo r	None of these
856	Part of computer which does addition, subtraction, multiplication, division and comparison	ALU	Memory	CPU	Control
857	General mathematical operation performs for CPU is —	ALU	DIMM	BUS	Register
858	The basic goal of computer process is to convert data into—	Files	Tables	Informati on	Graphs
859	Arithmetic operations—	Involve matching one data item with another to determin e if the first item is greater than or equal to or less than the other item	Sort data items according to standard, predefined criteria in ascending order or descending order	Use condition s with operator such as AND, OR and NOT	Include addition, subtraction, multiplication and division
860	Processing involves—	Inputing data into a computer system	Transforming input into output	Displayin g output is a useful manner	Providing relevant answer
861	Input, output and processing devices grouped together represent—	Mobile device	Information processing cycle	Circuit board	Computer system
862	The name of the location of a particular piece of data is its—	Address	Memory name	Storage	Data location
863	is the part of the computer that does the arithmetical calculations.	Memory	OS	CPU	ALU
864	A CPU contains	A card reader and a	An analytical engine and a control unit	A control unit and an	An arithmetic logic unit and a card reader

		printing device		arithmetic logic unit	
865	The benefit of using computer is that-	Compute rs are very fast and can store huge amounts of data.	Computers provide accurate output even when input is incorrect.	Compute rs are designed to be inflexible.	All of these
866	Computations and logical operations are performed by the	RAM	ALU	Register	Control unit
867	The function of CPU is	To provide external storage of text	To communicate with the operator	To read, interpret and process the informati on and instructio n	Assembler
868	Example of non-numeric data is	Employe e address	Examination score	Bank balance	All of these
869	The information you put into the computer is called	directory	facts	data	files
870	is data that has been organized or presented in a meaningful fashion.	A process	Storage	Software	Information
871	The part of a computer that coordinates all its functions is called its	ROM program	System board	Arithmeti c logic unit	Control unit
872	represents raw facts. Whereas is meaningful data—	Informati on, reporting	Data, information	Informati on bits	Records, bytes
873	The benefit of using computers is that	computer s are very fast and can store huge amounts of data.	computers provide accurate output even when input is incorrect.	computer s are designed to be inflexible.	all of the above

874	The function of CPU is	to provide external storage of text	to communicate with the operator	to read, interpret and process the informati on and instructio n	to provide a hard copy'
875	is the process of carrying out commands.	Fetching	Storing	Decoding	Executing
876	Computers gather data, which means they allow users to data.	present	store	output	input
877	Which of the following is not the major function of a computer ?	Processi ng data into informati on	Storing data or information	Gatherin g data	Analysing data or information
878	The central processing unit (CPU)	contains the electronic circuits that cause processin g to occur	makes the information resulting from processing available for use	allows data programs , comman ds, and user response s to be entered into a computer	consists of electronic components that store data
879	A collection of unprocessed items is	informati on	data	memory	reports
880	The is responsible for performing calculations and contains decision-making mechanisms.	Central Processi ng Unit	Memory unit	Arithmeti c and Logic Unit	Output Unit
881	This component is required to process data into information and consists of integrated circuits—	Hard disk	RAM	CPU	ROM
882	Computers manipulate data in many ways, and this manipulation is called	utilizing	batching	upgradin g	processing
883	is the result produced by a computer.	data	Memory	Output	Input

884	In an information system, alphanumeric data normally takes the form of	Sentence s and paragrap hs	Numbers and alphabetical characters	Graphic shapes and figures	Human voices and other sounds
885	Memory unit is one part of	Control unit	Central Processing Unit	Input device	Output device
886	Computeris whatever is typed, submitted, or transmitted to a computer system—	input	output	data	circuitry
887	Manipulating data to create information is known as	feedback	programming	processin g	analysis
888	Hardware used to translate words, sounds, images, and actions that people understand into a form that the system unit can process is known as	device drivers	device readers	input devices	output devices
889	The tells the rest of the computer how to carry out a program's instructions.	ALU	control unit	system unit	motherboard
890	The information processing cycle includes the following processes	input, processin g, output, storage	input, output, manipulation, arithmetic	data, processin g, printing, editing	storage, display, data, information
891	The arithmetic/ logic unit performs the following actions	checks data for accuracy	does calculations using addition, subtraction, multiplication, and division	does logical comparis ons, such as equal to, greater than, less than	does both calculations and logical comparisons
892	The computer's processor consists of the following parts	CPU and Main Memory	Hard Disk and Floppy Drive	Main Memory and storage	Operating system and Applications
893	A microprocessor is the brain of the computer and is also called a(n)	microchip	macrochip	macropro cessor	calculator
894	Main memory works in conjunction with	special function cards	CPU	RAM	Intel

895	The main job of a CPU is to	carry out program instructio ns	store data/informatio n for future use	process data and informati on	both (a) and (c)
896	When speaking of computer input and output, input refers to	any data processin g that occurs from new data input into the computer	data or information that has been entered into the computer	the transmiss ion of data that has been input into the computer	Both (b) and (c)
897	All of the logic and mathematical calculations done by the computer happen in/ on the	system board	central control unit	central processin g unit	mother board
898	The primary goal of a computer system is to turn data into	ideas	suggestions	informati on	reports
899	Arithmetic operations	involve matching one data item to another to determin e if the first item is greater than, equal to, or less than the other item.	sort data items according to standard, predefined criteria in ascending order or decending order	use condition s with operators such as AND, OR and NOT	include addition, subtraction, multiplication, and division
900	Once information is input into a computer it becomes	objects	data	ideas	facts

## **REMOTE SENSING**

REMOTE SENSING IS THE ACQUISITION OF INFORMATION ABOUT AN OBJECT OR PHENOMENON WITHOUT MAKING PHYSICAL CONTACT WITH THE OBJECT, IN CONTRAST TO IN SITU OR ON-SITE OBSERVATION. THE TERM IS APPLIED ESPECIALLY TO ACQUIRING INFORMATION ABOUT THE EARTH AND OTHER PLANETS.

Each Section has 100 Multiple Choice Questions (MCQ). Each question has four choices. Student to Tick the correct answer.

Sr. No.	Question	A	В	С	D
901	Input, output, and processing devices grouped together represent a(n)	mobile device	information processing cycle	circuit board	computer system
902	An electronic device, operating under the control of information, that can accept data, process the data, produce output and store the results for future use	Input	Computer	Software	Hardware
903	Theof software contains lists of options and commands.	Menu bar	Tool bar	Title bar	None of these
904	MS. Office 2000 was developed by	Novel	Coral	Lotus Microsoft	Microsoft
905	Microsoft is an	Organizat ion to manufact ure a microchip	Organization to develop a software	Organizat ion for micro engineeri ng	Organization to manufacture hardware
906	A small arrow or blinking symbol on desktop is called a	Mouse	Logo	Hand	Cursor
907	Which of the following refers to the rectenglular area for displaying information and running programme-	Desktop	Dialog Box	Menu	Window
908	A popular window environment window -3 launched by Microsoft in	1985	2000	1995	1990
909	Technique in link two computers is called	Internet	E-mail	E-prom	Interface
910	To increase or decrease a speed of mouse cursor, which option in need	Setting	Control	Control Panel	None of these
911	Windows Software was developed by	IBM	Apple corporation	Wipro	All of these
912	While on the desktop in Windows, what happens pressing F5 do?	Refreshe s the screen	Opens help menu	Does nothing	Opens Search

913	Which of the following type of software is MS Window?	CUI	MUI	LUI	None of these
914	Which of the following tellsus about used and free space available in a computer?	My Compute r	My document	My briefcase	My search
915	Driver software does not need	Windows -95	DOS	3D	Photostyler
916	Windows-98 was developed in	1994	1998	2001	2004
917	What is close button?	window which is present at the end of title bar	lika a small button	To click it opened dialogue box and documen t is closed	All of these
918	and Keys are used withb thecombination of other key for shortcut and other special functions.	Ctrl, Alt	Function, Toggle	Delete,In sert	None of these
919	Background of Screen is known as	Applicatio n	Window	Desktop	Frame
920	If Text was highlighted and Edit 'Copy' was clicked, what would happen?	Text would be copied from the documen t and placed in the clipboard	Text would be removed from the document and placed in the clipboard	Text from the clipboard would be placed in the documen t at the place where the cursor is blinking	Only b and c
921	At which button is Help Menu available?	End	Start	Turn Off	Restart
922	You can keep your personal files/folders in	My Documen ts	My folder	My files	My text
923	Various applications and documents are represented on the windows desktop by	Symbols	Labels	lcons	Graphs

924	Data that is copied from an application is stoled in the	Driver	Terminal	Promtp	Clipboard
925	All the deleted files go to	Recycle bin	Task bar	Tool bar	My Computer
926	The rectengular area of the screen that displays a programme, data and/or informed is a	Title Bar	Button	Dialog Box	Window
927	A Contains commands that can be selected	Pointer	Menu	lcon	Button
928	Text and graphics that have been cut or copied are stored in an area called the	Paste Board	Copy Board	Clip Board	Cutting Board
929	What is the significance of a faded (dimmed) command in pull -down menu ?	The comman d is not currently accessibl e	A dialog box appears if the command is selected	A help window appears if the comman d is seleceted	There are no equivalent keystrokes for the particular command
930	Generally, you access the recyclebin through an icon located	On the desktop	On the hard drive	On the short cut menu	In the properties dialog box
931	What menu is selected to cut, copy and paste ?	File	Edit	Tools	Table
932	What is a File?	A file is a selection of main storage used to store data.	A file is collection of information that ha s been given a name and is stored in secondary memory	A file is a part of a program me that is used to describe what the program m should do.	Floppy disks can only store data, not programs.
933	Deleted data remains on a disk untill	The data is over written	The recycle bin is empty	A file compress ion utility is used	The disk is scanned

934	When you cut or copy information it gets place in the	Clipart	Clipboart	Intrenet	Mother board
935	The side bar in a window or word processor that has an arrow on both ends and a box in the middle that you use your mouse to move the pages up or down-	Scroll bar	Roll bar	Page bar	Box bar
936	Which is the graphical representation of an application ?	Windows 95	Windows Explorer	lcon	Task bar
937	To shrink a window to an icon	Open a group window	Minimise a window	Maximise a window	Restore a window
938	Some thing which has easily- understood instructions is said to be	Analog data	Digital data	Modem data	Watts data
939	The portion that shows all the choices you can make while working in a window is called the	Options	Table	Menu bar	Item bar
940	A (n) Contains commands that can be selected.	Pointer	Menu	Icon	Button
941	A (n) Is a small image that represents a program, an instruction, a file, or some other object.	Keyword	Interface	Menu	Icon
942	Ais an icon on the desktop that provides a user with immediate access to a program or file.	Kernal	Buffer	shortcut	Spooler
943	Date and Time are available on the desktop at	Keyboard	Recycle bin	My computer	Task bar
944	A symbol on the screen that represents a disk, document or program that you can select	Keys	Caps	lcon	Monitor
945	To "maximize " a window means to	Fill it to capacity	Expand it to fit the desktop	Put only like files inside	Drag it to the Recycle bin
946	Easy to use	User friendly	Select	Helpful	Ever - ready

947	Choices are referred to as	Option	Exit	Boot	Folder
948	A place that a user can creat to store files	Cursor	Text	Folder	Boot
949	Commands at the top of a screen such as FILE-EDIT-FONT-TOOLS to operate and change things within programs	Menu bar	Tool bar	User friendly	Word Processor
950	To insert a copy of the clipboard contents, whatever was last cut or copied at the insertion point	Paste	Cut	Clip	Push
951	The command used to remove text or graphicss from a document. The information is then stored on a clipboard so you can paste it.	Сгор	Cut	Clip	Cart away
952	To move down a page in a document	Jump	Fly	Wriggle	Scroll
953	Screen that comes on when you turn on your computer that shows all the icons	Desktop	Face to face	Viewer	View space
954	Each On a menu performs a spacific action.	Client	Server	Node	Command
955	A menu contains a list of	Comman ds	Data	Objects	Report
956	Files are organized by storing them in	Tables	Database	Folders	Graphs
957	Is when the more power hungry components, such as the monitor and the hard drive are put in idle.	Hibernati on	Power down	Stand by mode	The shut down procedure
958	When you install a new program on your computer, it is typically added to the Menu.	all programs	select programs	start programs	desktop programs
959	A Contains buttons and menus that provide quick access to commonly used commands.	Menu bar	Tool bar	window	action bar
960	Which of the following menu type is also called a drop-down menu?	flyo-ut	cascading	pop-up	pull-down
961	Most application software today comes with an interface called a(n)	graphical used interface	character user interface	Icon user interface	button user interface

962	Shows the files, folder, and drives on your computer, making it easy to navigate from one location to another within the file hierarchy.	Microsoft office Internet Explorer	Windows Explorer	My computer	Folder Manaager
963	are lists of commands that appear on the screen .	GUIs	Icons	Menus	Windows
964					
965	A(n) Uses pictures (called icons) and menus dispalyed on the screen to send commands to the computer system.	Comman d based user interface	GUI	API	system utility
966	The Allows you to access objects and start programs.	Default menu	XP menu	Start menu	Stop menu
967	"GUI" stands for	General Universal Interface	Graphical User Interface	Graphic Uninstall/i nstall	General Utility Interface
968	Which of the following languages is more suited to a structured program?	PL/1	FORTRAN	BASIC	PASCAL
969	A computer assisted method for the recording and analyzing of existing or hypothetical systems is	Data transmiss ion	Data flow	Data capture	Data processing
970	The brain of any computer system is	ALU	Memory	CPU	Control unit
971	Which of the following computer language is used for artificial intelligence?	FORTRA N	PROLOG	С	COBOL
972	The tracks on a disk which can be accessed without repositioning the R/W heads is	Surface	Cluster	Cylinder	None of these
973	Which of the following is the 1's complement of 10?	1	110	11	10
974	A section of code to which control is transferred when a processor is interrupted is known as	М	SVC	IP	MDR
975	Which part interprets program instructions and initiate control operations.	Input	Storage unit	Logic unit	Control unit

976	The binary system uses powers of	2	10	8	16
977	A computer program that converts assembly language to machine language is	Compiler	Interpreter	Assembl er	Comparator
978	The time required for the fetching and execution of one simple machine instruction is	Delay time	CPU cycle	Real time	None of these
979	Which access method is used for obtaining a record from a cassette tape?	Direct	Sequential	Random	All of the above
980	A name applied by Intel corp. to high speed MOS technology is called	HDLC	LAP	HMOS	SDLC
981	The radian of a number system	ls variable	Has nothing to do with digit position value	Equals the number of its distinct counting digits	ls always an even number
982	The process of communicating with a file from a terminal is	Interactiv e	Interrogation	Heuristic	All of the above
983	The examination and changing of single bits or small groups of his within a word is called	Bit	Byte	Bit manipulat ion	Bit slice
984	Which computer has been designed to be as compact as possible?	Mini	Super computer	Micro computer	Mainframe
985	Which method is used to connect a remote computer?	Device	Dialup	Diagnosti c	Logic circuit
986	How many bit code is used by Murray code for TELEPRINTER machines.	4	5	9	25
987	The symbols used in an assembly language are	Codes	Mnemonics	Assembl er	All of the above
988	A systems programming language for microcomputers in the Intel family is	PL/C	PL/CT	PL/M	PLA
989	A datum that indicates some important state in the content of input or output is	Sequenc e	Sentinel	SIO	Sibling
990	Which is a non-standard version of a computing language?	PROLOG	APL	Army	PL/1

991	Winchester Disk is	Stack Disk	Removable Disk	Flexibal Disk	None of these
992	The microcomputer, Intel MCS-80 is based on the widely used Intel	8080 micropro cessor	8085 microprocesso r	8086 micropro cessor	8082 microprocess or
993	Which is a machine-oriented high- level language for the GEC 4080 series machines.	LOGO	SNOBOL	Babbage	ALGOL
994	The list of coded instructions is called	Compute r program	Algorithm	Flowchart	Utility programs
995	An optical input device that interprets pencil marks on paper media is	O.M.R	Punch card reader	Optical scanners	Magnetic tape
996	Most important advantage of an IC is its	Easy replacem ent in case of circuit failure	Extremely high reliability	Reduced cost	Low power consumption
997	Data division is the third division of a program.	COBOL	BASIC	PASCAL	FORTH
998	Which language was devised by Dr. Seymour Aubrey Papert?	APL	COBOL	LOGO	FORTRAN
999	A device designed to read information encoded into a small plastic card is	Magnetic tape	Badge reader	Tape puncher	Card puncher
1000	A hybrid computer uses a to convert digital signals from a computer into analog signals.	Modulato r	Demodulator	Modem	Decoder

### ROBOTICS

Robotics is an interdisciplinary field that integrates computer science and engineering. Robotics involves design, construction, operation, and use of robots. The goal of robotics is to design machines that can help and assist humans.

Each Section has 100 Multiple Choice Questions (MCQ). Each question has four choices. Student to Tick the correct answer.

Sr. No.	Question	Α	В	C	D
1001	A group of magnetic tapes, videos or terminals usually under the control of one master is	Cylinder	Cluster	Surface	Track
1002	Any device that performs signal conversion is	Modulat or	Modem	Keyboard	Plotter
1003	Codes consisting of light and dark marks which may be optically read is known as	Mnemo nics	Decoder	Bar code	All of the above
1004	The first generation of computers available was based on the bit micro processors.	4	8	16	64
1005	The complete picture of data stored in database is known as	Record	Schema	System flowchart	DBMS
1006	A language which is close to that used within the computer is	High- level languag e	Assembly language	Low-level language	All of the above
1007	Which is a unit representing the no bits of discrete.	Baud	Byte	Bit	All of the above
1008	The device that can both feed data into and accept data from a computer is	ALU	CPU	Input- Output device	All of the above
1009	A modern digital computer has	Extrem ely high speed	Large memory	Almost unlimited array	All of the above
1010	Which of the following can store information in the form of microscopic pits on metal disks.	Laser disks	Tape cassettes	RAM cartridge	Punched cards
1011	A storage system for small amounts of data is	Magneti c card	Magnetic tape	Punched card	Optical mark reader
1012	Compilers and interpreters are themselves	High- level languag e	Codes	Programs	Mnemonics
1013	Which is a device that changes information into digital form?	Modem	Digitizer	Mouse	Light pen

1014	Which network is a packet switching network?	Ring network	LAN	Star network	EuroNET
1015	Symbolic languages were developed in	1962	1950	1974	1980
1016	When was Apple Macintosh II microcomputer introduced in the market?	1964	1970	1983	1986
1017	Control Unit of a digital computer is often called the	Clock	Nerve center	ICs	All of the above
1018	Human beings are referred to as Homosapiens. Which device is called Silico sapiens?	Monitor	Hardware	Robot	Computer
1019	The most important advantage of a video disk is	Compa ctness	Potential capacity	Durability	Cost effectiveness
1020	The software used to convert source program instructions to object instruction is known as	Compile r	Assembler	Interprete r	Language processor
1021	Backing storage is so named because it	is always kept at the back of the CP.U.	is always not kept at the back of the CP.U.	backs up the computer' s main memory	lags behind the main memory
1022	The ASCII code for the character J is:	1001 0001	1001 1010	0100 1010	1010 0001
1023	Off-line operation is the operation of devices without the control of	Memory	CPU	ALU	Control unit
1024	What is meant by a dedicated computer?	Which is used by one person only	Which is assigned one and only one task	Which uses on kind of software	Which is meant for application software only
1025	Which of the following is the user programmed semiconductor memory?	SRAM	DRAM	EPROM	All of the above
1026	The two kinds of main Memory are:	Primary and second ary	Random and sequential	ROM and RAM	All of the above

	I		1	1	1
1027	Programs designed to perform specific tasks is called known as	System softwar e	Application software	Utility programs	Utility programs
1028	What is the name given to the weapons which use computerised guidance system?	Guided weapon s	Smart weapons	Dumb weapons	Dumb weapons
1029	Conversion of binary number 1010101000010111 to hexadecimal number is	D8F916	D8F916	AA1716	D9F816
1030	Which of the following holds data and processing instructions temporarily until the CPU needs it?	ROM	control unit	main memory	coprocessor chips
1031	A multi programming system is one that can	run very fast	share hardware resources with many programs simultaneously	compute many programs simultane ously	use many operating systems
1032	The language that is an input for statement translation is called	Assemb ly languag e	Source language	High- level language	Object language
1033	A high speed device used in CPU for temporary storage during processing is called	A register	A bus	A databus	All of the above
1034	The first electronic digital computer contained?	Electron ic valves	Vacuum tubes	Transisto rs	Semiconducto r memory
1035	Name the two persons who were the first to develop a model of the microprocessor chip.	Marcian Ted Hoff	Victor Poor	Harry pyle	Both (b) and (c)
1036	EBCDIC can code up to how many different characters?	16	32	64	256
1037	Who is credited with the idea of using punch cards to control patterns in a weaving machine?	Pascal	Hollerith	Babbage	Jackquard
1038	Which 32-bit microprocessor is used in IBM's PS/2 model-80 computer?	8088	80286	80386	80486
1039	The memory which is ultraviolet light erasable and electrically programmable is	ROM	PROM	RAM	EPROM

	What is the name of the computer				All - 5 41
1040	which was first used for programming and playing of music?	ELLIAC	ENIAC	UNIVAC	All of the above
1041	Who is the creator of the PASCAL language?	Niklaus Wirth	Dijkstra	Donald Knuth	Basic Pascal
1042	When was punched-card equipment used for the first time to process the British census?	1910	1911	1907	1914
1043	A hashing scheme is used with	sequent ial file organiz ation	direct file organization	indexed sequentia I file organizati on	partitioned file organization
1044	The time taken for the read/write head to move to the correct track on the magnetic disk is called	epoch delay	delay	seek time	approach time
1045	A computer has a 1024K memory. What does the letter K stand for	Kilometr e	Thousand	1024	MB
1046	Computer instructions written with the use of English words instead of binary machine code is called	Mnemo nics	Symbolic code	Gray code	Op-code
1047	The system unit of a personal computer typically contains all of the following except:	micropr ocessor	disk controller	serial interface	modem
1048	Which of the following are the two main components of the CPU?	control unit and register s	registers and main memory	control unit and ALU	ALU and bus
1049	A directly accessible appointment calendar is a feature of a resident package.	CPU	Memory	Buffer	ALU
1050	1024 bytes represent a	Megaby te	Gigabyte	Kilobyte	None of the above
1051	Which type device is a piece of equipment that receives information from a CPU?	Input	Output	CPU	Memory
1052	When was the IBM XT microcomputer released in the market?	1970	1971	1987	1986

1053	Which is true for the digital computer?	It is less accurat e than the analog comput er	It represents the decimal numbers through a string of binary digits	It is used primarily in scientific applicatio ns	Both (a) and (c)
1054	Which of the following is used for serial access storage only?	RAM	Magnetic tape	Magnetic tape	Core memory
1055	A memory space used for the temporary storage of data is	PROM	SAM	Scratchp ad storage	Buffer
1056	When did arch rivals IBM and Apple Computers Inc. decide to join hands?	1984	1978	1990	1991
1057	To locate a data item for storage is	Feed	Field	Database	Fetch
1058	When an input electrical signal A=10100 is applied to a NOT gate, its output signal is	1011	1011	10101	101
1059	The first practical commercial typewriter was invented in 1867 in the United States by	Christo pher Latham Sholes	Carlos Glidden	Samuel Soule	All of the above
1060	Large computer system typically uses:	Line printers	Ink-jet printers	Dot- matrix printers	Daisy wheel printers
1061	The heart of any computer is the	CPU	Memory	I/O Unit	Disks
1062	What do you call a portable computer?	Laptop	Booktop	RAM	Computer
1063	What do you do if your computer dies/malfunctioning?	Reboot (Restart )	Shut Down	Recovery CD and Recover your system	Call a person to fix it
1064	What do you use to type?	Mouse	Keyboard	CPU	ROM
1065	What memory below is the largest?	1TB	10GB	500 Bytes	500 GB
1066	What do you use to read CDs/DVDs?	DVD ROM	CD ROM	CD DVD PLAYER	All of above
1067	Which line do you use to connect to the internet?	Phone Line	Mouse	Ethernet	Motherboard

1068	What do you use to connect to the internet?	CPU	Mouse	Modem	Software
1069	What Is an icon?	You play with it	You click to start something	You ignore it	All of above
1070	What do you use to click stuff?	RAM	CPU	Keyboard	Mouse
1071	Dose software comes with a product key?	True	False		
1072	What type of device is a computer monitor?	Input	Output	Software	Storage
1073	What type of devices are computer speakers or headphones?	Input	Output	Software	Storage
1074	A computer tower is NOT:	A CPU	Hardware	the "Heart" of the computer	A peripheral
1075	What type of device is a computer printer?	Input	Output	Software	Storage
1076	What type of device is a 3 1/2 inch floppy drive?	Input	Output	Software	Storage
1077	What type of device is a computer mouse?	Input	Output	Software	Storage
1078	A report generator is used to	update files	print files on paper	data entry	All of the above
1079	Which of the following is not a logical data-base structure?	tree	relational	network	chain
1080	Express 8192 in K units.	8 x 103 K	8.192 k	8K	All of the above
1081	The functional capacity for LSI devices is	1 to 11 gates	12 to 99 gates	100 to 10,000 gates	more than 10,000 gates
1082	What is the 2's-complement representation of -24 in a 16-bit microcomputer?	0000 0000 0001 1000	1111 1111 1110 0111	1111 1111 1110 1000	0001 0001 1111 0011
1083	Which gates is known as universal gate?	NOT gate	AND gate	NAND gate	XOR gate

1084	is an abbreviation for binary digit.	0 and 1	bingit	base	bit
1085	Conversion of hexadecimal number 1D7F16 to a decimal number is	755110	877110	555710	778110
1086	Parallel adders are	combin ational logic circuits	sequential logic circuits	both of the above	All of the above
1087	A microcomputer is a computer that uses a for its CPU	chips	registers	micropro cessor	vacuum tube
1088	Which command of MS-DOS is used to copy only files that have been modified on or after the date you specify?	XCOPY /D : date	COPY/D : date	COPY/M	XCOPY/V
1089	While working with MS-DOS, which command is used to restore files that were backed up using the BACKUP command?	COPY	DISKCOPY	RESTOR E	STORE
1090	The term TSR is an abbreviation for:	Termina te Stay Ready	Testing System Read	Terminal Still Ready	Terminate Stay Resident
1091	Using the switch causes FDISK to display the partition status of your hard disk without executing FDISK.	/show	/display	/status	/part
1092	Shortcut Key to center a paragraph is:	Ctrl + J	Ctrl + J	Ctrl + L	Ctrl + R
1093	Shortcut Key to justify a paragraph is:	Ctrl + E	Ctrl + C	Ctrl + J	Ctrl + P
1094	Shortcut Key to move next workbook is:	Ctrl + F6	Alt + F6	Shift + F6	F6
1095	Shortcut Key to paste a cell is:	Ctrl + P	Ctrl + X	Ctrl + V	Ctrl + Z
1096	Shortcut Key to open old workbook is:	Ctrl + F	Ctrl + O	Ctrl + N	Ctrl + Y
1097	Shortcut Key for double line spacing is:	Ctrl + 1	Ctrl + 3	Ctrl + 2	Ctrl + 4
1098	Shortcut Key for renaming file and folder is:	F3	F1	F4	F2
1099	Which of the following is loaded for CD-ROM support?	VLM.EX E	CDDEX.EXE	DOSKEY .EXE	MSCDEX.EX E

1100	Suppose you had an incurable computer virus and decided to wipe out all the data and partitions on your hard drive and reformat. What is the order in which you must delete the partitions?	Extende d, Logical, Primary	Primary, Extended, Logical	Logical, Extended , Primary	Logical, Primary, Extended
------	--	--------------------------------------	----------------------------------	--------------------------------------	----------------------------------

1001	Cluster			
1002	Modulator			
1003	Bar code			
1004	8

### Supercomputer

A supercomputer is a computer with a high level of performance as compared to a general-purpose computer. The performance of a supercomputer is commonly measured in floating-point operations per second instead of million instructions per second. Since 2017, there are supercomputers which can perform over 10<sup>17</sup> FLOPS.

Each Section has 100 Multiple Choice Questions (MCQ). Each question has four choices. Student to Tick the correct answer.

Sr. No.	Question	Α	В	С	D
1101	A boot is when DOS is restarted without turning off the computer.	warm	reboot	shutdown	system up
1102	How many digits of the DNIC (Data Network Identification Code) identify the country?	first three	first four	first five	first six
1103	Frames from one LAN can be transmitted to another LAN via the device	Router	Bridge	Bridge	Modem
1104	What are the most commonly used transmission speeds in BPS used in data communication?	300	1200	2400	9600
1105	What is the default subnet mask for a class C network?	127.0.0.1	255.0.0.0	255.255. 0.0	255.255.255.0
1106	Now-a-days computers all over the world can talk to each other. Which is one of the special accessories essential for this purpose?	Keyboard	Modem	Scanner	Fax
1107	Which file transfer protocol uses UDP?	NFS	TELNET	TFTP	FTP
1108	A network designer wants to connect 5 routers as point-to-point simplex line. Then the total number of lines required would be	5	10	20	32
1109	What is the first octet range for a class A IP address?	1 - 126	192 - 255	192 - 223	1 - 127
1110	What is the first octet range for a class B IP address?	128 - 255	1 - 127	192 - 223	128 - 191
1111	Which of the following items is not used in Local Area Networks (LANs)?	Compute r	Modem	Printer	Cable
1112	Byte = how many bits ?	16 bits	8 bits	32 bits	64 bits

1113	What in this world uses MPEG-2 and MPEG-4 digital compression technology and is transmitted using INSAT 4A at 83 degrees E ?	Dish tv	Videocon	Airtel	TATA Sky
1114	Grace Murray Hooper wrote the first in 1952?	Bug	BIOS	Compiler	DOS
1115	What is Google's headquarters nicknamed ?	GooglePl ay	GooglePlex	GooglePl us	All of above
1116	Connect SPSS , LEXMARK , Pwc and the sale of Thinkpad in 2005.	IBM	Acer	Dell	Lenevo
1117	What was created by Eduaro Saverin ,Chris Huges , Dustin Muzkovitz and other guy?	Twitter	Gmail	Faceboo k	All of above
1118	X was officially launched on MTV on May 12, 2005.The detailed launch and game information divulged later that month at the Electronic Entertainment Expo.What is X ?	Xbox 260	Xbox 300	Xbox 360	Xbox 500
1119	Which brand in this world created the Whispernet for its trademark device?	Flipkart	Amazon	Ebay	Sneapdeal
1120	Chrome :: Google ::::: Firefox :: ?	Mozilla	internet	All of above	None of the above
1121	Who has developed AISHA a competitor for SIRI in the market?	Xolo	Micromax	Sony	Samasung
1122	What was developed by Justin Frankel, Dmitry Boldyrev, and Shiva Ayyadurai and its popularity grew quickly, along with the developing trend of MP3 file sharing.	VLC	Windows player	Winamp	All of above
1123	Leopard, Snow Leopard, Lion are all versions of which famous OS?	Apple	Mac OS	Chrome	None of the above
1124	He has been heading Cisco since 1995 ?	John Martin	John Methew	John Chamber s	Charlie
1125	Series 40 is a mobile OS by which company?	Sony	Apple	Nokia	Samasung
1126	Which company was founded by John Bullough Lansing in 1946 ?	BPL	JBL	APL	SPL
1127	It was also ranked as the No. 1 for customer satisfaction within the	Virgin Mobile	Airtel Mobile	Relience	Videocon

	first ear of its launch with an overall score of over 95%. It have also been adjudged the 'Buzziest Brands of 2009' i.e. the most searched for brands by surfers, in a survey carried out by a leading online portal in India!				
1128	Denis Ritche created C and other computer language.Which is the other one?	OS	DOS	LINUX	UNIX
1129	Who founded NEXT computer corp?	Steve Hunt	Steve Jobs	Steve Mathew	Steve Anderson
1130	It looks like a dog , but it is a robot.Identify the robot created by Sony ?	AIBO	ABIO	AIOB	OIAB
1131	Which is the computer language developed by John Backus ?	FOTRAR N	FORTRAN	TFORAR N	None of the above
1132	Expand VoIP	Video Over Internet Protocol	Voice Over Internet Protocol	Voice Over Internet Proto	Voice Omega Internet Protocol
1133	What is Android 4.0 commonly called ?(hint:What we would like to eat)	Kitkat	Icecream Sandwich	Lollypop	Jallybean
1134	Which software was developed at the Cowpland Research Laboratories by Michael Cowpland	Photosho p	Corel Draw	I Design	Paint
1135	Who is the Father of Free Software Movement ?	Richard Jobs	Richard Stallman	Richard Steve	Alex Stallman
1136	Sean and Sean created Napster.Name them	Sean Parex and Sean Fanning	Sean Parker and Sean Fannel	Sean Parker and Sean Fanning	Sean Parker and Sean Fanes
1137	Which game was created by Sami Jarvi ? (hint:its a Person shotter game)	MIN PAYNE	MAX PAY	MAX PAYNE	MAX PAYE
1138	With which indain mobile maker did intel make xolo ?	Intel	NOKIA	Karbonn	LAVA
1139	What is macsyma, a programming language used for?	COBOL	Algebra	C++	Pascal

1140	This IT company was initially set up as a manufacturer of vegetable ghee, vanaspati, refined oils including salad oil in Maharashtra under the trade names of Kisan, Sunflower and Camel.ID the company.	WIPRO	KISAN	ANKUR	SAFFOLA

1320	is not present in picture option.	From file	Clip art	Object	Autoshape
1321	To create tab leaderis used.	Ruler	Tabs	Table	Format tab
1322	To move selected textis used.	Cut/paste	Copy/paste	Сору	Replace
1323	To change size of document page	Page setup	Font	Paragraph	Enter
1324	Which is not in toolbar?	View	Drop cap	Ruler	File
1325	is in tool menu.	Column	Mail merge	Font	Cut
1326	Text that justified is	Bold	Adjust to both margin	Centered	Text
1327	If you copy selected textis used.	Cut	Duplicate	Move	Сору
1328	The list in bottom of file menu	Display all files	None of above	Display last files	Exit
1329	The first line on word window where name of document is written called	Title bar	Ruler bar	Menu bar	Bar
1330	When you insert table in document them	Every line is dotted	Outlines every cell	None of these	No line
1331	Microsoft word iskind of software.	Processo r	File	DBMS	Line

1332	The default view of document is	Print	Normal	Web	Sorter
1333	Find command is available inmenu.	Tools	File	Edit	Format
1334	The paper orientation for printing is	Landscap e	File	Portrait	None of these
1335	The default size of page in word is	Legal	A4	Letter	None of these
1336	The magnifier button is available in	Formattin g	Format	Print preview	None of these
1337	The use of undo is	Remove both text and format	Remove format	Remove text	All of these
1338	Split option is inmenu.	File	Edit	Window	Table
1339	To view the page number switch to	Full screen	Mirror image	Print Iayout	Outline
1340	Short key of redo is	ctrl+Y	Ctrl+A	Ctrl+E	Ctrl+Q
1341	is not formatting toolbar.	Redo	Font	Alignment	Border
1342	The dialog box where the words searching capabilities are used is	Save as	Find	Open	save
1343	To convert "The computer" into "tHE cOMPUTER"is used.	Toggle case	Lower case	Upper case	Title case
1344	To display any option in menu bar you must	Right click	Both A & B	Click	None of these
1345	To close the documentcommand is used.	Close	End	Exit	Stop
1346	To select the text from insertion point to end of line	Press ctrl+hom e	Click on paragraph	Press ctrl+end	Click on selection bar
1347	which key is used to insert date?	Alt+shift+ D	Alt+shift+E	Alt+shift+ N	Alt+shift+F
1348	key delete character from right side.	Home	Delete	Backspac e	End
1349	Which key combination is used for creating new auto text entry?	Alt+F3	Alt+F6	Alt+F4	Ctrl+F3
1350	Format painter is used to	Copy selected text	Draw different shape	Copy format of	None of these

				selected text	
1351	To convert "H2O" into "H2O"option is used.	Subscript	Lower	Super script	Small
1352	To select complete paragraph by mouse pointeron paragraph.	Single click	Triple click	Double click	None of these
1353	Arrange all command is present inmenu.	File	Window	Edit	View
1354	Which key is used to reveal formatting?	Shift+F9	F1	Shift+F1	F9
1355	To spacify space between two linesis used.	Insert line	Line spacing	Insert space	None of these
1356	shortcut key is used to replace the text.	ctrl+D	ctrl+H	ctrl+A	ctrl+R
1357	The delete and time command is	Insert last date & time	Insert date & time as u say	Insert current date & time	None of these
1358	Which of the following can't be selected?	Word	Selection bar	Letter	Line
1359	The insertion point is	Current font informati on	Name of document	Descriptio n of button display	Current location of text cursor
1360	Using full screen allows you	Display all opened documen ts	Use of document designed	Display only document	Cancel the change of document
1361	provides list of synonyms.	Replace	Find	Thesauru s	None of these
1362	Maximum zoom percentage in MS- WORD is	50	30	2	5
1363	Window list is used for	Displayin g all opened files	Allow to close files	Displaying last four opened files	None of these
1364	You can use style for	saving the file	Deleting file	Formattin g your document	All of these

1365	is used to make multiple changes.	Drag and drop	Replace	Find	All of these
1366	When you indent paragraph	Move the text up by line	Push the text with margin	Move the text down by line	Change margin of page
1367	You always usebefore submitting document to other.	Spelling & Grammer	Find	Replace	Cut
1368	By defaultinch are reserved to header and footer.	0.5	2.5	1	1
1369	You can change the margin by	Checking margin boundari es on ruler	Dragging margin boundaries in ruler	Dragging scroll box on scroll bar	All of these
1370	To reverse the effect of last actionis used.	Undo	Reverse	Сору	Replace
1371	To view all document on one screenoption is used.	Arrange all	Split	Show	Window
1372	are commonly used to find web pages.	Internet	Hyperlink	Web page	All of these
1373	Bold,Italic,Underline are the part of	Standard	Colour	Formattin g	Drawing
1374	To copy current document,on discis used.	Сору	File	Save	Find
1375	The list in bottom of file menu	Display all opened file	Display no. of file	Display current file	None of these
1376	The default size of letter page is	8.5*11	8.5*14	8.5*12	8.5*10
1377	Which combination key is used for creating new autotext entry?	Alt+F3	Alt+F6	Alt+F4	Alt+F3
1378	Which is the shortcut commonly used to switch between application?	Alt+tab	Alt+ctrl	Alt+shift	Alt+s
1379	A data source is made up of	Text that changes with each version of a merged	Both text and graphics that change with each version of a merged document	Both A and B	None of this

		documen t			
1380	How print dialog box will be activate?	File/print	File/format	File/new	Print
1381	Page can be printed in landscape mode by selectingmenu.	File-print- propertie s-layout- landscap e	File-print- paper-source	File-print- preview	Print layout
1382	bar shown on bottom of the document screen.	Task bar	Status bar	Menu bar	Tool bar
1383	By default there isline spacing.	Single	Double	Triple	None of these
1384	To shade work and paragraphoption is used.	Border and shadding	Background	Format	Fill
1385	To activate the office assistantkey is used.	F1	F3	F2	F4
1386	By default information of header and footer is stored	On every page	On last page	On one page	None of these
1387	Switching between portrait and landscapeoption is used.	Page	Page setup	Page preview	File
1388	To display online help information that suggest more efficient ways to complete a taskis used.	Find help	Index sheet	Office assistant	Content sheet
1389	Which key is used to mark of the contents entry?	Alt+shift+ o	Ctrl+o	Alt+ctrl+o	None of these
1390	Times roman and comics sans are type of	Style	Font	Character	All of these

### **MACHINE LEARNING**

Machine learning is the study of computer algorithms that improve automatically through experience and by the use of data. It is seen as a part of artificial intelligence.

Each Section has 100 Multiple Choice Questions (MCQ). Each question has four choices. Student to Tick the correct answer.

Sr. No.	Question	Α	В	C	D
1501	what is a full form of WIFI?	Wireless Facility	Wireless Fidelity	Wireless Faculty	Wireless Formation
1502	What is a device which a smart phone having a screen which is intermediate in size between that of a typical smartphone and a tablet computer?	Tablet	Phablet	Laptop	Pamtop
1503	It was formerly called internet explorer how do we know it today?	EDGE	CHROME	SAFARI	DRIVE
1504	This key when pressed, often is interpreted by software as "stop", when sent from the computer to an external device. Which key?	SHIFT	CTRL	ESC	Home
1505	Name the program that processes and converts statements written in a particular programming language into machine language.	Editor	Compiler	operating system	Explorer
1506	This program compresses large files into a smaller files.	Win Shrink	compressor	WinZip	Editor
1507	This is a function key seen on the keyboard	SHIFT	CTRL	F7	F9
1508	What Power Point features will you use to apply motion effects to different objects of a slide?	slide transition	animation objects	animation scheme	Preview
1509	What is the main circuit board of a computer that contains the CPU?	Motherbo ard	Integrated circuit	Printed circuit board	Chipset
1510	Name the local memory that is used as a buffer during data transfer?	CD – ROM	Cache	Hard disk	Temp Memory
1511	It is used in shops and supermarkets extensively to read the vertical zebra-striped marks printed on the products?	Bar code Reader	scanner	Smart card Reader	Camera
1512	The standard language used to create all web pages is:	HTML	Fortran	Java	C++

1513	LED, CRT and LCD are the three different types of:	USB	Monitors	Printers	CPU
1514	Pixel is a new phone from which company?	Apple	Samsung	Google	Tesla
1515	This is not an anti- virus software?	Bitdefend er	Kaspersky	Prisma	Quickheal
1516	What is command used to test if a device on the network is reachable?	Ping	Echo	Flash	Connect
1517	An infinite loop can be terminated by this command?	Exit	Break	Abort	Cancel
1518	When you insert an Excel file into a Word document, the data is considered To be what?	Hyperlink ed	placed in a word table	Embedde d	Attached
1519	This virus is explicitly designed to hide itself from detection by antivirus software	Stealth virus	Polymorphic virus	Parasitic virus	Trogen
1520	Who is the Indian partner of DOCOMO?	Tata	Birla	Reliance	Airtel
1521	Which game allows you to use many power-ups provided in this game, these include jetpacks, super jumpers, super sneakers, coin magnets and score multipliers?	Subway surfers	Angry birds	Temple run	FootBall
1522	What does Vo stand for in VoLTE (Long-Term Evolution)?	vocal octave	voice over	voltage over	Voice On
1523	Which of this is not a key on a QWERTY Keyboard?	Esc	Ins	Pg Sd	Enter
1524	What is an electronic flash memory data storage device used for storing digital information?	CDROM	Memory Card	Cloud Storage	Temp Storage
1525	Which IT Company in India has the tag line 'Experience Certainly?'	TCS	HCL	WIPRO	Reliance
1526	Black, ERA 4K 1 X AND ERA 2 are all smartphones made by which company?	GIONEE	XOLO	NOKIA	МІ
1527	Which company creates the CENTRINO line of processors?	AMD	ASUS	INTEL	WIPRO
1528	What is a software application designed to run on mobile devices such as smartphones and tablet computers?	virus	Арр	Browser	Setting

1					
1529	This is the symbol used on a keyboard to represent the conjunction word "and".	&	*	+	%

### આપણી ગ્રામ પંચાયતમાં હવે ડિજિટલ સેવા સેતુ ઉપલબ્ધ

ગ્રામ્ય વિસ્તારના લોકોને શહેર કે તાલુકા સુધી જવું ન પડે અને સ્થાનિક સ્તરે જ ઓછામાં ઓછા સમયમાં સરકારી સેવાઓનો લાભ મળી શકે તે માટે સરકારને નાગરિકો સાથે જોડતો સેતુ

> ગ્રામજનોને ગુજરાત સરકાર દ્વારા પ્રજાલક્ષી સેવાઓનો 'વન કે ગર્વનન્સ'ના અભિગમ સાથે ઘરઆંગણે લાભ પહોંચાડવામાં આવશે...

Digital

ગુજરાત સરકારના ડિજિટલ ગુજરાતના સપનાને સાકાર કરવાના ભાગરૂપે "ડિજિટલ સેવા સેતુ" પ્રોજેક્ટ અંતર્ગત હવે ગામડાઓમાં સરકારી સેવાઓ જેવી કે;

ા આવકનો દાખલો	રેશનકાર્ડની રોવાઓ	િંગ્ન અનામત વર્ગો માટેના દાખલા	<b>વિધવાનો</b> દાખલો	દ્વિ ધાર્મિક લઘુમતી અંગેનું પ્રમાણપત્ર	્રિટ્ટ ભાષાકીચ લઘુમતી અંગેનું પ્રમાણપત્ર
R	ત્રિ તથા ७/૧૨ અને ૮/અ ના ઉતારા તેમજ અન્ય ૨૦થી વધુ સરકારી સેવા લાભ ગ્રામપંચાયત કક્ષાએ જ સરળતાથી મેળવી શકાશે.
